

SMART Training Certification

SMART Notebook Math Tools

If you or your organization provides training on SMART products, then consider SMART Training Certification. SMART Training Certification goes beyond the basics with extensive hands-on instruction that enables you to deliver high-quality training on SMART Notebook™ Math Tools.

Who should attend SMART Training Certification?

SMART Training Certification is for math instructors and education trainers who want to train people on the use of SMART Notebook Math Tools. Participants who wish to attend Notebook Math Training Certification should have previously attended a Notebook level 1 training program.

What's the value of SMART Training Certification?

Upon the successful completion of this program, you will be certified to deliver full-day SMART training sessions on SMART Notebook Math Tools.

- You will receive guided instruction and practice facilitating SMART Notebook Math Tools Training sessions
- You will receive a certificate, letter of completion and logos that indicate your designation
- You can purchase or download SMART's learner workbooks
- You will be listed as a SMART Certified Trainer on SMART's website at smarttech.com/us/Resources/Training/Training+Search+Pre-filter
- You can market yourself as a SMART Certified Trainer for SMART Notebook Math Tools

Extraordinary made simple™

SMART™

What to expect?

- One half-day of basic SMART Notebook Math Tools end-user training. As a certification candidate, you will use this time to review or learn how to use SMART Notebook Math Tools. You will also observe the sequence, emphasis and delivery method that a SMART Certified Trainer uses to facilitate this training session.
- One half-day of SMART Notebook Math Tools certification training. You will receive facilitation material, coaching and practice that will help you deliver the high-quality SMART Notebook Math Tools Training sessions your customers expect from a SMART Certified Trainer.

What are the requirements to be a SMART Certified Trainer?

This program includes pre- and post-session requirements that must be completed before you receive your SMART Certified Trainer designation. There are also ongoing requirements to maintain your designation.

Pre-session requirements

- Participants must have solid working knowledge of the Microsoft® Windows® operating system
- Participants must be SMART Certified Trainers for SMART Notebook collaborative learning software

Post-session requirements

- All participants must successfully complete an online certification assessment

Ongoing requirements

- SMART Certified Trainers may be required to successfully complete an annual online assessment to maintain their designation

You'll receive

Learning materials

- A *SMART Notebook Math Tools Training Learner Workbook* – the learner's reference tool during the training session
- A USB storage device, loaded with materials for learners to use during and after the session

www.smarttech.com

www.smarttech.com

Facilitation materials

- A *SMART Notebook Math Tools Training Facilitator's Guide* – the comprehensive guide for delivering a SMART Notebook Math Tools Training session
- A Trainer Resource CD, which includes demonstration files, training presentation files and product User's Guides

After successfully completing the online certification assessment, SMART Certified Trainers have access to electronic versions of the learning materials – and rights to distribute them to training customers. SMART Certified Trainers may also purchase production-quality learner materials directly from SMART.

Customer requirements for an on site session

- All participants must have basic computer skills prior to attending this session
- A SMART Board™ interactive whiteboard, or digital projector and screen
- A facilitator computer (provided by the facilitator). The facilitator computer must connect to the SMART Board interactive whiteboard. If your network security prohibits connection of an outside computer, a facilitator computer must be provided.
- One computer per learner.
- Every computer must have SMART Notebook Math Tools installed for this training session
- All computers running Microsoft® Windows® operating system
- All computers connected within a Local Area Network (LAN) – wired or wireless. A 10 Mbps TCP/IP network interface adapter is required.
- All computers running the most recent version of Adobe® Flash®
- Internet access
