

# SMART Training

## SMART Classroom Suite™

### What to expect

- You'll learn and practice how to use SMART Classroom Suite™ interactive learning software to teach effectively in a classroom equipped with computers
- Experience SMART Classroom Suite from both a student and teacher perspective
- You'll have hands-on practice with every task you learn
- You'll have the opportunity to collaborate with colleagues on tasks that are applicable to your teaching

### You'll receive

- A *SMART Classroom Suite Training Learner Workbook* that includes reference material and step-by-step instructions for every task you will learn during the session
- A USB drive, loaded with materials for use during and after the session. This includes home videos and materials to reinforce your learning and help you teach your students how to use SMART Classroom Suite.
- A *Teaching with SMART Classroom Suite* summary poster to help guide your use of SMART Classroom Suite when you return to your classroom

### Who should attend?

- K–12 educators and higher education instructors whose classrooms are equipped with student computers. You must have experience with SMART Notebook™ collaborative learning software and the SMART Response™ interactive response system prior to attending this training.
- Participants who wish to attend SMART Classroom Suite training should have previously attended a SMART Notebook Level 1 and SMART Response training sessions

Extraordinary made simple™

SMART™

## Event contents

1. **Introduction to SMART Classroom Suite:** Learn what a SMART Classroom Suite environment looks like, which software components you and your students use, your role in setting up SMART Classroom Suite and how and when to start SMART Sync™ classroom management software and SMART Response CE classes
2. **Learning with SMART Classroom Suite:** Learn how to teach your students to take notes and complete assignments, organize assignments, complete assessments, ask questions and submit their work
3. **Creating lessons for use with SMART Classroom Suite:** Learn how to create student-versions of lessons, create lessons that support student work and create short-answer questions
4. **Teaching with SMART Classroom Suite:** Learn how to use SMART Classroom Suite to instruct the whole class, distribute files, monitor and support student work, and collect student work
5. **Assessing students with SMART Classroom Suite:** Learn how to use SMART Classroom Suite to deliver pre-created and instant questions
6. **Integrating SMART Classroom Suite into your classroom:** Combine the main concepts of the session and learn how to access the additional resources that SMART provides to support your use of SMART Classroom Suite.

## Customer requirements for an on site session

- All computers must have the Microsoft® Windows® operating system
- Every computer must have both student and teacher versions of SMART Classroom Suite installed for this training session
- A SMART Board™ interactive whiteboard, or a digital projector and screen
