

SMART Training Certification

SMART Classroom Suite™

What to expect

- One day of SMART Classroom Suite™ interactive learning software certification training. You will receive facilitation material, coaching and practice that will help you deliver the high-quality SMART Classroom Suite training sessions your customers expect from a SMART Certified Trainer.
- One day of basic SMART Classroom Suite end-user training. As a certification candidate, you will use this day to review or learn how to use SMART Classroom Suite. You will also observe the sequence, emphasis and delivery method that a SMART Certified Trainer uses to facilitate the training session.

You'll receive

Learning materials

- A *SMART Classroom Suite Training Learner Workbook* – the learner's reference tool during the training session
- A USB drive, loaded with materials for learners to use during and after the session
- A *Teaching with SMART Classroom Suite* summary poster to help guide your use of SMART Classroom Suite

Facilitation materials

- A *SMART Classroom Suite Training Facilitator's Guide* – the comprehensive guide for delivering a SMART Classroom Suite training session
- A Trainer Resource CD that includes demonstration files, training presentation files and product user's guides

After successfully completing the online certification assessment, SMART Certified Trainers gain access to electronic versions of the learning materials – and rights to distribute them to training customers. SMART Certified Trainers may also purchase production-quality learner materials directly from SMART.

Extraordinary made simple™

SMART™

Who should attend?

SMART Training Certification is for K–12 instructors and education trainers who want to train others on the use of SMART Classroom Suite.

What is the value of SMART Training Certification?

Upon the successful completion of this program, you will be certified to deliver full-day SMART training sessions for SMART Classroom Suite.

- You'll receive a certificate, a letter of completion and logos that indicate your designation
- You can purchase or download SMART's learner workbooks
- You'll be listed as a SMART Certified Trainer on the SMART website:
www.smarttech.com/trainingcenter/masters/certifiedtrainers.asp
- You can market yourself as a SMART Certified Trainer for SMART Classroom Suite

What are the requirements to be a SMART Certified Trainer?

This program includes pre- and post-session requirements that must be completed before you receive your SMART Certified Trainer designation. There are also ongoing requirements to maintain your designation.

Pre-session requirements

- Participants must have solid working knowledge of the Microsoft® Windows® operating system
- Participants must be SMART Certified Trainers for SMART Notebook™ collaborative learning software and the SMART Response™ interactive response system

Post-session requirements

- All participants must successfully complete an online certification assessment

Ongoing requirements

- SMART Certified Trainers may be required to successfully complete an annual online assessment to maintain their designation

www.smarttech.com

Customer requirements for on site sessions

- A room that will comfortably hold the participants
- A SMART Board™ interactive whiteboard or a digital projector and screen
- A Facilitator computer (provided by the facilitator). The facilitator computer must connect to the SMART Board interactive whiteboard. If your network security prohibits connection of an outside computer, a facilitator computer must be provided.
- Speakers (connected to the facilitator computer or SMART Board interactive whiteboard)
- One computer per participant
- Every computer must have **both student and teacher** versions of SMART Classroom Suite installed for this training session. All computers must have the same (most current) version of SMART Classroom Suite installed. Student components must be installed to run in *Visible* mode.
- All computers must have the Microsoft Windows operating system
- All computers must be connected within a Local Area Network (LAN) – wired or wireless. A 10 Mbps TCP/IP network interface adapter is required.
- A commercial grade router such as the Cisco® Aironet® wireless access point (802.11g protocol)
- All computers must have the most recent version of Adobe® Flash® player installed
- Internet access

How can I prepare for the session?
