

# SMART Training and Professional Development

## SMART Table™

### What to expect

- You'll learn and practice how to use the SMART Table™ interactive learning center to enhance lessons and facilitate classroom learning
- You'll learn how to build and customize your own SMART Table activities, and how to incorporate them into your lessons
- You'll practice using the SMART Table from both a student and teacher perspective
- You'll have hands-on practice opportunities with every task you learn
- The opportunity to collaborate and share with colleagues on tasks that are applicable to your teaching

### You'll receive

- A *SMART Table Training Learner Workbook* that includes reference material and step-by-step instructions for every task you'll learn during the session.

### Who should attend?

- Any kindergarten to grade 3 teacher whose classroom is equipped with a SMART Table interactive learning center, and wants to create effective and engaging lesson activities.

SMART Training  
On-Site Session

**SMART**™

Extraordinary made simple

## Event contents

1. **SMART Table Basics:** Become familiarized with the SMART Table, how it works, and how it can be used in your classroom
2. **SMART Table Applications:** Learn about the software applications on your SMART Table, and get a chance to try some of them out
3. **SMART Table Toolkit:** Take a look at the SMART Table customization software, and learn how to download ready-made customized activities and applications
4. **Customizing Applications:** Learn how to customize each application, and create your own customized SMART Table activity
5. **Integrating the SMART Table in the Classroom:** Use the SMART Table with other SMART products to create a complete classroom teaching and learning solution
6. **Additional Resources:** Discover further resources available to help you make the most of your SMART Table and other SMART products in your classroom

## Customer requirements

- All participants must have basic computer skills prior to attending this event
- Please bring a laptop computer with the most recent version of SMART Notebook™ collaborative learning software, and the SMART Table Toolkit installed
