

# SMART Technical Training

## SMART Board™ 600 & 600i

### What to expect

- Each session is led by a SMART Technical Trainer who is extremely familiar with SMART Board™ interactive whiteboard technology and service
- By the end of the session, you'll be comfortable troubleshooting, diagnosing and performing basic service work for the SMART Board 600 and 600i series interactive whiteboard. You'll also learn how to troubleshoot a Unifi™ 35 projector and understand the setup requirements (including how to extend USB connections) for both the interactive whiteboard and the projector.
- You'll receive a *SMART Board Interactive Whiteboard Service Manual*, the *Installation and Configuration Guide* for the 600i and a guide to extending USB connections for the 600 and 600i series. Each participant will also receive a USB drive full of useful resources.
- The session will include discussions that help you relate what you've learned to your work

### Who should attend?

Those in your organization responsible for installing or supporting SMART products

Extraordinary made simple™

SMART™

## Event contents

1. **Detailed component description:** Learn about the separate components of the SMART Board interactive whiteboard and Unifi projector
2. **Theory and operation:** Get detailed insight into how SMART products work
3. **Servicing:** Learn how to diagnose and resolve technical issues
4. **Installation and connection:** Learn how to install the product and understand common connection issues
5. **Accessories:** Find out about the accessories that are available for the SMART Board interactive whiteboard

## Customer requirements for on site sessions

- A room that comfortably holds 10 participants and a SMART Technical Trainer. It must have an area large enough to assemble and disassemble a SMART Board interactive whiteboard.
- A SMART Board 600 series interactive whiteboard
- A SMART Board 600i series interactive whiteboard system (includes Unifi projector)
- Access to the Internet (recommended but not required)
- Access to a computer network (recommended but not required)
- A front- or rear-projection SMART Board interactive whiteboard, Sympodium™ interactive pen display or SMART Board *for Flat-Panel Displays* interactive whiteboard (necessary for the SMART Technical Trainer to deliver the presentation)
- A digital projector or plasma panel if using a SMART Board *for Flat-Panel Displays* interactive whiteboard
