

## SynchronEyes Software Version 7.0 Buttons and Toolbars

SynchronEyes™ teacher-station software has toolbars in two different areas. The views toolbar, on the left, controls what you see in the main area of the interface and what functions are accessible from the main toolbar. The main toolbar, located at the top of the interface, enables you to use those functions in SynchronEyes software to monitor, instruct, control and assess students.

### The views toolbar

There are the following five views in SynchronEyes software: Thumbnails, Quiz, File Transfer, Chat and Applications. Access and use the features in each view by selecting its button in the views toolbar.

 <b>Thumbnails</b>	Monitor and control your students' computers.
 <b>Quiz</b>	Create and distribute interactive quizzes.
 <b>File Transfer</b>	Send computer files to your students.
 <b>Chat</b>	Start a computer chat session with all your students or a group of students.
 <b>Applications</b>	Remotely block, launch and close applications on students' desktops.

### The main toolbar – constant functions

Some buttons are always available in the top toolbar. You can lock student desktops, block Internet access, start a chat session, answer student questions or conduct a poll from any of SynchronEyes software's five views.

 <b>Lock</b>	 <b>Internet</b>	 <b>Message</b>	 <b>Questions</b>	 <b>Vote</b>
Lock student computers and direct their attention to the front of the room.	Block access to Internet Explorer® Internet browser.	Send a message to an individual student or a group of students.	Review and respond to student questions.	Conduct a poll using yes or no questions.

## The Thumbnails view toolbar

Select the **Thumbnails** button in the views toolbar to watch and control student computers.

 Observe	 Control	 Broadcast	 Capture	 Show Media	 Send Web	 Shut Down
