

**SMART®**

LightRaise™ 40wi interactive projector

The LightRaise 40wi projector includes access to high-quality lesson content, service and support and is the only interactive projector that comes with SMART Notebook software.

Backed by over 20 years of innovation in educational technology, the LightRaise 40wi interactive projector allows you to add interactivity to almost any surface. This pen-enabled, ultra-short-throw interactive projector is ideal for environments where there is a greater focus on directed learning.

Bring learning to life with SMART Notebook

The LightRaise projector is the only interactive projector that includes SMART Notebook™ collaborative learning software. SMART Notebook software sets the standard for creating, delivering and managing interactive lessons. Through SMART Notebook, educators also have immediate access to over 50,000 learning resources on the SMART Exchange™ website.

Add interactivity almost anywhere

With the LightRaise projector, you can turn almost any surface, including a dry-erase whiteboard, into an interactive learning space. It combines projection and interactivity in one ultra-short-throw product and enables you to create screen sizes of up to 100" (254 cm) on the diagonal. You can accommodate multiple learning environments, all-purpose rooms and collaboration spaces with one projector, while ensuring that the content your students see is interactive and engaging.

Increase your return on investment

The LightRaise projector enables you to fill more classrooms with technology products while working within a fixed budget. You can accommodate a variety of learning environments while repurposing your existing materials and dry-erase whiteboards. Complementary SMART solutions integrate with the LightRaise projector through SMART Notebook software, so you always have the option to extend and enhance your classroom solution in the future.

- 1** Ultra-short-throw projector with a 0.30:1 throw ratio
- 2** Projects image sizes from 77" to 100" (196–254 cm)

- 4** HDMI input, two VGA inputs and network connection
- 5** SMART Notebook collaborative learning software
- 6** Immediate access to the SMART Exchange website
- 7** Rechargeable interactive pen

Key features

SMART Notebook software included

Millions of educators worldwide are using SMART Notebook collaborative learning software.

When you choose the LightRaise projector, you can be sure you are standardizing on software that is proven, popular and backed by a global community of educators.

Access to lesson content

Get immediate access to the SMART Exchange website, where educators connect with each other and save on lesson preparation time by sharing and downloading classroom-ready learning resources. The more than 50,000 resources on SMART Exchange include standards-correlated lessons and applications from leading educational publishers and content providers.

Integration with SMART solutions

The LightRaise interactive projector enables you to make the most of your existing technology investment because it integrates with other SMART products through SMART Notebook software. With the projector, it's easy to switch between multiple lesson applications, saving time and reducing distractions.

Multiple installation options

The ability to project images of a range of sizes, up to 100" (254 cm), lets you add interactivity to a wide variety of learning environments and collaboration spaces.

Accommodates a fixed budget

The LightRaise interactive projector offers an affordable way to create large, widescreen, interactive images for your students.

Ultra-short-throw projector

With an outstanding 0.30:1 throw ratio, the projector eliminates most shadows and glare, reducing unnecessary classroom distractions while delivering a crisp, bright image the entire class can see.

Audio components

A 10-watt speaker and microphone input add audio capabilities to the LightRaise interactive projector.

Interactive pen and pen holder

The projector comes with a rechargeable interactive pen and convenient pen holder in which to store it.

SMART Projector Care

Your investment is covered under the SMART Projector Care program, which includes a three-year warranty, 24-hour advance replacement and preferential pricing on projector lamp upgrades and replacements.

Support for multiple operating systems

The LightRaise interactive projector supports both Microsoft® Windows® and Mac operating systems.

Low power consumption

The interactive projector consumes less than one watt of power in standby mode.
