Innovative features

Teach with powerful learning software

Both models of the SMART LightRaise include SMART Notebook collaborative learning software, as well as access to over 60,000 ready-made learning resources, letting you create and deliver lessons quickly and easily.

Experience stunning visuals

With 2500 lumens of brightness for the 60wi and 3000 lumens for the 60wi2, SMART LightRaise projectors deliver stunning HD visuals that keep students engaged. Ultra short-throw projection also keep images free of distracting shadows and glare.

Collaborate with multiple users

SMART LightRaise projectors offer a natural and intuitive approach to collaboration. Plus, students and teachers can interact and learn together using dynamic multi-touch gestures like zoom and rotate.

Quickly access control settings

The optional extended control panel available for both models of the SMART LightRaise offers a simple one-touch power on/off switch, plus all video, audio and touch data is carried through a single, easy-to-access cable connection.

Interact with a finger or a pen

Dual interactivity enables two users to write, manipulate content, and change ink colors for your finger and pen, without affecting the other user's activity.
