

# SMART Board® 8000 series interactive flat panel

There is no richer way to create, share and interact with digital content in meeting rooms than with the SMART Board 8000 series. Loaded with SMART Meeting Pro™ software, it is the world's most productive meeting room experience.

SMART®

## Key Features

### SMART Meeting Pro™ software

This powerful productivity and collaboration software enables you to work together in an Unbound Workspace to create, share and interact with your content and ideas. Also included are personal licenses of SMART Meeting Pro™ software.

### Touch-enabled Ultra HD display

A durable, high quality display that uses smooth, anti-glare glass to create an optimal touch experience. Available in 4K Ultra HD resolution.

### Touch gestures

Zoom, flick and rotate objects easily – the 8000 series supports touch gestures like those used in the Microsoft Windows 7 and 8 operating systems.

### Presence Detection

The display automatically turns on when people are nearby and turns off when no movement is detected.

### Object awareness™

Functionality automatically adjusts depending on the tool or object being used, whether it's a pen, finger, eraser or palm.

### SMART ink™

Write over websites, videos, PDFs and Microsoft Office® files and save your notes in almost any file type.
