### Whiteboard from anywhere\*

With optional SMART kapp iQ functionality you can share your whiteboard session with anyone. From their laptop, tablet or phone, they can then contribute content to the board in real-time, as well as see content update as it unfolds on the board.

*\*8065 model only*

### SMART Meeting Pro™ software

This powerful productivity and collaboration software enables you to work together in an Unbound Workspace to create, share and interact with your content and ideas. Also included is SMART Meeting Pro™ Personal Edition.

### Touch-enabled Ultra-HD display

A durable, high quality display that uses smooth, anti-glare glass to create an optimal touch experience. 4K ultra HD resolution is available with each model.

### Touch gestures

Zoom, flick and rotate objects easily – the 8000 series supports touch gestures like those used in the Microsoft Windows 7 and 8 operating systems.

### Presence Detection

The display automatically turns on when people are nearby and turns off when no movement is detected.

### Object awareness™

Functionality automatically adjusts depending on the tool or object being used, whether it's a pen, finger, eraser or palm.

### SMART ink™

New with SMART Ink, the dynamic ink toolbar appears as soon as you pick up a pen. Easily select ink tools, navigate through application specific ink tools and discover enhanced text injection and editing tools.

### Pen iD™

The next generation 8065 also features dual magnetic pens, one red and one black, designed for a customized multi-user experience. Pen color can also be changed through the integrated ink tool bar.
