

SMART Slate

Interactivity with no strings attached

- Control software applications and highlight information from anywhere in the classroom
- Save your notes and other work to a single file using award-winning SMART Board software
- Get your students involved – several students can interact at the same time

Teach from anywhere

Teach from the front of the room, the back of the class or by a student's side – without losing the learning benefits of interacting with digital course material.

With the SMART Slate, you and your students can interact wirelessly with your SMART Board™ interactive whiteboard from up to 33 feet (10 m) away. Use the wireless slate's battery-free tethered pen to switch between pen and mouse modes to control any software application, write notes or highlight information.

Interaction for all students

Powered by SMART Notebook software, the SMART Slate is a lightweight tool that you can carry with you as you teach. Write out a math problem using the wireless slate, and then hand it to a student to fill in the answer. Use multiple slates for group work such as question and answer sessions. The slate supports simultaneous interaction, so multiple students using slates and the SMART Board interactive whiteboard can write notes at the same time.

No matter what your teaching style, you and your students get all the benefits of interacting with course material, websites and computer programs.

You have a lot of students to teach and plenty of topics to cover. Make it easier to give interactive and motivating course material with the SMART Slate.

- 1 Programmable buttons
- 2 Active screen area
- 3 Battery-free tethered pen

Dimensions

Active area

6" H x 8" W (15.24 cm x 20.32 cm)

Size

10" W x 11" H x 1" D
(25.4 cm x 27.94 cm x 2.54 cm)

Weight

2 lb. (0.91 kg)

Key features

- **SMART Board interactive whiteboard integration** – Interact with your SMART Board interactive whiteboard from anywhere in the classroom.
- **Simultaneous interaction** – A SMART Board interactive whiteboard user can write at the same time as one or more AirLiner wireless slate users.
- **Battery-free tethered pen** – Ensures no downtime and needs no maintenance.
- **Battery-free wireless mouse** – A hassle-free way to navigate through your digital information.
- **Bluetooth® adapter** – Class 2 adapter has an expected range of 54 feet (16 m) and a maximum range of 164 feet (50 m) in free space.
- **Underlay** – Easily toggle between Notebook™ software functions from your AirLiner slate.
- **6" x 8" (15 cm x 20 cm) electromagnetic surface** – The electromagnetic screen lets you rest your hand on the screen for easier use. And the active area matches the size of any screen

for accurate contact.

- **Programmable buttons** – Customize the buttons on both the slate and the pen to access your favorite functions.
- **Rechargeable lithium-polymer battery** – Charge time of 6 hours, battery life of 30 hours.
- **Saving ability** – Save all your work to a single file that is compatible with Windows®, Mac OS and Linux® operating systems. Notes and graphics are saved as objects that you can manipulate and organize, or write and save notes directly into popular Microsoft® Office applications.

SMART Notebook

SMART Notebook software sets the standard for creating, delivering and managing interactive course material within a single application. It puts all your lesson materials at your fingertips. With its rich set of features and digital resources, SMART Notebook software helps educators deliver high-impact course material and connects them to a full ecosystem of content, tools and support.

A powerful and easy-to-use application, SMART Notebook software enables you to readily deliver interactive course material that create more extraordinary learning moments for your students.
