

# SMART Notebook®

## collaborative learning software

SMART Notebook allows educators to easily create engaging interactive learning experiences while providing the flexibility to respond to the needs of learners in real-time. Plus, it's easy to standardize on Notebook software across all brands of interactive hardware in your school or district.

---

## Why choose SMART Notebook:

**Quickly and easily create** and aggregate dynamic, interactive content.

**Allow for real-time changes** in instruction with formative assessment and other interactive tools.

Ensure that teachers can **standardize** across interactive displays and operating systems with a flexible, evolving platform.

**Leverage teacher and student devices** to drive discussion, assessment and content creation.

Tailor the experience for every lesson with **subject-specific** functionality.

Enjoy the benefits of a **proven technology** developed specifically for education over 22 years, and used in 2.4 million classrooms worldwide.

---

### Key Features:

#### Lesson Activity Builder

Built on the theories of gamification and game-based learning, the Lesson Activity Builder makes it easy to create interactive, fun lessons that your students will love – all in less than 5 minutes.

#### SMART Notebook Math powered by GeoGebra

Powerful math functionality for all grade levels, including easy equation editing and 55,000+ math content objects and activities for geometry, algebra, calculus and statistics. Built by math enthusiasts to make math a dynamic subject for students.

#### SMART Blocks

Provides a fun and innovative way to explore math concepts. Students write numbers and drop them into the equation block where the answer is automatically formulated. It can be used for simple addition and subtraction up to basic algebra.

#### SMART Notebook Recorder

SMART Notebook Recorder allows you to record your lesson from within SMART Notebook, so students can replay it to learn at their own pace, inside or outside the classroom.

#### Interactive concept maps

Map ideas and brainstorm sessions interactively, so students can explore their learning process, together.

#### SMART Notebook for iPad app

Helps you view and create SMART Notebook lessons, complete assessments on the fly and import files from Dropbox, Google drive, iTunes or the SMART Exchange using your iPad.

#### SMART Notebook Maestro add-on\*

Lead instruction through a single iPad, anywhere in the room. Interact with content on it while students see changes in real-time on the board. Or hand control over to a student who can lead interactions.

*\*Must have SMART Notebook for iPad app, SMART Notebook Advantage and, at least SMART Notebook version 14.2.*

---

Compatible with all SMART Board® and SMART kapp iQ® displays and with Epson BrightLink® Interactive Projectors.
