

SMART Notebook®

collaborative learning software

Full features list

Create

Activity builder

Create activities where objects react to actions by accepting or rejecting other objects and by triggering animations or sound. The activity builder is ideal for arranging, sorting, labeling and other activities.

Sound recorder

Record sound directly into your SMART Notebook lesson – there's no need to switch between programs and files.

Insert sound

Add sound to objects in your SMART Notebook lesson with one click. You can browse the Gallery for audio files of famous speeches, animal sounds, phonics, instruments and more.

Crayon

Draw authentic-looking crayon pictures in any color.

Custom creative pen

Build your own creative pen using any image you choose. It's a fun way to engage students in a lesson.

Shape image fill

Add any image to a shape and you can scale the image to fit that shape.

Irregular shape fill

Draw any closed shape and then fill your drawing with color.

Table Tool

Create a table from the SMART Notebook software toolbar, then insert or drag text, images and objects into any cell. Cells are also easy to scale and move.

Themes

Create themed pages using elements such as fonts, background colors and images, and apply them to SMART Notebook pages.

Print screen captures

Insert print captures from Microsoft Office applications and the Internet directly into SMART Notebook software.

Active alignment

Format a SMART Notebook software page, and this tool accurately aligns objects to each other, and to the vertical and horizontal page centers.

Eyedropper Tool

Select any color from your computer's color palette and use it to outline or fill objects.

Fill tool

Fill shapes with the last color you used.

Insert function

Insert video, shapes, links, Adobe Flash files, text and audio into your SMART Notebook lessons. You can also compress images using the image optimization tool. Anything inserted becomes a SMART Notebook software object that you can manipulate.

Special fonts and scientific notation

Use superscript and subscript in your text or add scientific symbols and notation.

Drawing tools

Add connectors, shapes, dotted lines, creative pen styles and other design elements, using a variety of drawing tools.

Auto Spell Check

Check spelling quickly with this built-in feature, which automatically scans text objects and documents while in editing mode.

Calligraphic pen

Watch your own handwriting turn into beautifully stylized curves and lines (available with SMART Board interactive displays only).

Flick

Flick objects across the page with the touch of a finger.

Page sorter

Organize the pages of a SMART Notebook file into groups. Drag pages into the groups, add new pages and show one group at a time in the Page Sorter.

Teach

Internet browser

Add an Internet browser directly onto a SMART Notebook software page. You can interact with the Web page by drawing or writing over the content, and drag and drop images from a Web page into your lesson. The browser content also scales automatically so you can always see the entire page.

Adaptive toolbar

Choose a tool and the adaptive toolbar changes, so all the properties you need are right in front of you.

Reset page

Quickly reset a SMART Notebook software page to its last saved state with one click.

Magic Pen

Use this three-in-one tool to spotlight, magnify or zoom in on an image, or write notes that will disappear in 10 seconds.

Text tool

Format text and make it consistent throughout your SMART Notebook software pages.

Clear ink

Remove all the ink from a single page without losing any other objects on the page.

Shape Recognition Pen

Draw a freehand shape, and SMART Notebook software recognizes and perfects it.

Shape recognition

Draw a freehand circle or other shape, and then apply shape recognition afterward to quickly perfect it.

Page Recording

Teach a concept in SMART Notebook software and record every step you take. In the replay, students will only see the on-screen actions.

Presentation Highlighter

Highlight text or objects with highlighter ink that automatically straightens.

Dual Page Display

Split your computer screen to view or work on two SMART Notebook pages simultaneously.

Work within reach

Keep tools within reach for smaller students by moving the toolbars to the bottom of the screen.

Full-screen mode

Create a bigger interactive whiteboard page area by hiding the toolbar and tabs. Navigate through your SMART Notebook software pages with a small, movable toolbar.

Screen Shade

Conceal and reveal information point by point by dragging the Screen Shade over your SMART Notebook software page.

Handwriting recognition

Write notes in digital ink and transform them into text with one touch.

Manage

Add-on Manager

The consolidated software manager makes it easy to install, enable, disable and remove add-ons for SMART Notebook software.

Properties tab

Use the Properties tab to change an object's line style, fill effects and animation options, all from one accessible location.

Save transparency mode

Create and save SMART Notebook files with fully transparent objects and digital ink.

Timed saves

Set your SMART Notebook file to save work automatically, from every minute up to every 30 minutes, or every time you move to a different page.

Mac Spotlight

Search text in your SMART Notebook files using Spotlight in Mac OS X.

Page turning for Mac

Use page-turning effects in Mac OS X to flip through SMART Notebook software pages like a book.

Digital Ink Layer

Create a transparency layer over your desktop that functions like a SMART Notebook page. Capture your work and insert it into SMART Notebook software with the click of a button.

Full object manipulation

Manipulate objects that you have created, written or added in a multitude of ways. Change the properties of objects, such as color, transparency or size. You can hyperlink objects to the Internet, other SMART Notebook pages or documents on your computer, and display all linked objects on a page.

Page Sorter

View SMART Notebook pages as thumbnails using the Page Sorter. Reorder your presentation by simply dragging and dropping thumbnails. You can also quickly add a page title and a time stamp by double-clicking a thumbnail.

Quick tool access

Access every tool within two clicks of your mouse using SMART Notebook software's refined menu navigation.

Export files

Save SMART Notebook files in various formats, including .ppt, .pdf and .html. You can also save individual SMART Notebook pages as separate image files (.jpeg, .png or .gif) for easy sharing.

Tablet computer support

Use SMART Notebook software on the go with enhanced tablet computer support.

One-click tabs

Switch between the Gallery, Page Sorter, Attachment or Properties tabs easily, with one click.

Languages

SMART Notebook software is available in over 50 languages.

Content

The SMART Exchange website

Discover more than 60,000 easy-to-use, relevant, classroom-ready resources and a growing online community on the SMART Exchange website. You can access the website by clicking the icon in the toolbar in SMART Notebook software. You can also easily share your lessons on the SMART Exchange website.

Gallery Essentials

Choose from over 7,000 learning objects to enhance your lessons, including images, backgrounds, dynamic Flash files, video and audio content. Take advantage of music-notation sheets, a compass, a protractor, clocks, maps, sports fields, solar systems and a variety of shapes. You also have access to an extensive collection of classic artwork from the Bridgeman Art Library.

My Content

Store SMART Notebook pages, photos, pictures and animated .gif files from other applications, and insert them directly into a SMART Notebook file. This function enables you to add objects to your own Gallery.

Team Content

Access common Gallery content on a shared network drive. Add or delete content in the Team Content folder without needing system administration access, and add Team Content items to your lessons.

Lesson Activity Toolkit

Discover customizable tools and templates to help you create professional and engaging lessons. Find templates for word games, quizzes, sorting tables and Flash tools to add interactive drag-and-drop or hide-and-reveal elements to your lessons.

SMART Gallery Sampler

Get the top 50 images, Flash tools, video and audio files available in the full version of SMART Notebook software's Gallery Essentials. Insert maps, images of historical figures, science diagrams and other educational visuals.

Multitouch

Multitouch support

Two can work together on the surface using a pen, finger or fist. There is no separate multiuser mode or restricted user area.

Gestures

Zoom, pan, flick and swipe. It's easy to scale objects or pages, toss an object or swipe between pages. You can also touch the interactive whiteboard to shake objects to group and ungroup them.

Right click

Access the right-click menu using two simple touch methods.

New Features for SMART Notebook 2014

SMART Response VE

Seamlessly transition between lesson delivery and assessment. Students can respond to planned and spontaneous questions and quizzes from any Internet-enabled device, anywhere.

XC Basic

Stimulate collaboration and discussion while incorporating mobile devices into your SMART Notebook lessons in new and exciting ways.

SMART Notebook Math powered by Geogebra

Improve math functionality for all grade levels with more than 55,000 math content objects and interactive activities for geometry, algebra, calculus and statistics. It supports both Mac and PC.

Ink editing

Enhance instruction with automatic handwriting recognition and conversion combined with intuitive text editing capabilities. Now you can edit, move, delete, modify or insert text objects without reaching for a keyboard.

SMART Notebook 3D tools

Provide truly immersive learning through the use of 3D objects right in your SMART Notebook lesson.

SMART Notebook Connect

Find and explore new content, resources and professional development within SMART Notebook.

SMART Blocks

New to SMART Notebook 14.2, SMART Blocks provide a fun and innovative way to explore math concepts. Students write numbers and drop them into the equation block where the answer is automatically formulated. It can be tailored for simple addition and subtraction to basic algebra.

SMART Notebook Maestro add-on

Interact with content and conduct collaborative SMART Notebook lessons with an interactive display and a single iPad anywhere in the classroom.

** Must have SMART Notebook for iPad app, SMART Notebook Advantage and SMART Notebook 14.2*

SMART Notebook Recorder

Record and replay lesson activities without leaving SMART Notebook. SMART Notebook Recorder helps create resources for students to learn at their own pace, inside or outside the classroom. A great tool for flipped classrooms, with small file sizes that make sharing easy.

Also available:

SMART Notebook for iPad app

Create multimedia files, complete assessments on the fly with SMART Response VE, allow students to share work with one another instantly and import files from Dropbox, Google drive, iTunes or SMART Exchange.
