

SMART Learning Suite software

Transform static content into interactive experiences with the world's best lesson delivery, assessment, collaborative workspace and game-based learning software suite.

One ultimate education suite

Desktop experience

Available for Windows or Mac, **SMART Notebook®** comes with lesson creation tools, subject-specific features and endless ways to wow students. Time-saving templates are easy to customize for all grades and subjects.

Online experience

SMART Learning Suite Online lets teachers add game-based and collaborative activities to SMART Notebook, PDF and PowerPoint® files, and send lessons to student devices so they can complete individual handouts or co-create in shared workspaces.

Powerful, easy-to-use tools for teachers

Lesson creation and delivery

- Quickly and easily create dynamic, interactive, fun and engaging content
- Send lessons to a SMART Board® with iQ and share lessons to student devices
- Seamlessly transition between direct instruction and self-directed activity time

Game-based activities

- Compelling graphics, animations and sounds keep students engaged and learning at a SMART Board or on devices
- Add a theme to an existing question set, or make a new educational game in under 5 minutes using the activity creation wizard
- Choose from many activity options: multiple choice races, sorting exercises, fill in the blanks and many more

Formative assessments

- Guide instruction based on real-time insights into student comprehension
- Create a formative assessment in a few minutes and have students answer questions on any web-enabled computer, tablet or phone
- Get instant reports on student understanding without breaking lesson flow

Collaborative workspaces

- In SMART Learning Suite Online, instantly convert any page from a PowerPoint, PDF or SMART Notebook file into a collaborative workspace, in or out of class
- Students co-create by adding content to the workspace from their devices, developing critical thinking and Social Emotional Learning skills
- Teachers facilitate whole-class and small-group collaboration by surveying and guiding student contributions at a SMART Board or on their teacher device

Join the 25 million teachers and learners using SMART Learning Suite around the world

One simple subscription model. Millions of enriching experiences.

SMART Learning Suite, including both the desktop and online experience, is available via a simple subscription model. Teachers can access the suite anytime, from any computer, including at home, and send entire lessons to student devices. Students can contribute to collaborative workspaces from anywhere.

The subscription is tailored to you, so you have only one cost to budget for. The subscription cost drops based on the number of licenses you purchase and the length of your plan.

Use SMART software on purpose-built technology

SMART Board interactive displays are designed to connect students, lesson content and devices into unified learning experiences. They encourage students to contribute, either up at the display or from their phones, tablets and laptops.

Untether the teacher

iQ embedded computing lets teachers deliver SMART Notebook lessons through the SMART Notebook Player app either at the display or from a mobile device.

Collaboration hubs

Simultaneous Tool Differentiation frees multiple students to write, erase and move notes in SMART Learning Suite at the same time – so students can easily work together at the board.

A 1-year subscription to SMART Learning Suite is included with the purchase of any SMART Board

Get the most out of your SMART solution

Your purchase is just the beginning. Our implementation services, professional development and community resources help educators learn to use their SMART solutions, hone their technology skills and improve student learning outcomes.

Professional Development

SMART provides complimentary professional development plans, and online courses and webinars that cover both functional and pedagogical topics.

Education Consulting

SMART has a team of former educators dedicated to supporting implementation, as well as publications and research demonstrating improved outcomes.

Community Resources

SMART Ed2Ed webinars provide tips and tricks and the SMART Exchange® online lesson repository has over 100,000 pieces of content.
