Federal Communication Commission interference statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning off and on the equipment, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase the separation between the equipment and receiver.

Innovation, Science and Economic Development Canada:

This device complies with RSS-247 of the ISED rules. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution:

(i) the device for operation in the band 5 150-5 250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems.
(ii) the maximum antenna gain permitted for devices in the bands 5 250-5 350 MHz and 5 470-5 825 MHz shall comply with the E.I.R.P. limit; and
(iii) the maximum antenna gain permitted for devices in the band 5 725-5 825 MHz shall comply with the E.I.R.P. limits specified for point-to-point and non point-to-point operation as appropriate.
(iv) Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5 250-5 350 MHz and 5 650-5 850 MHz and that these radars could cause interference and/or damage to the LAN-EL devices.

Radiation Exposure Statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the antenna and all persons.

EUROPE

EU Declaration of Conformity

Hereby, SMART Technologies ULC declares that the radio equipment type OPS, AM40 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.smar tech.com/compliance

The frequency band and the maximum transmitted power in EU are:

- 2400 MHz – 2483.5 MHz: 10dBm (EIRP)
- 5 150 MHz – 5 250 MHz: 10dBm (EIRP)
- 5 470 MHz – 5 875 MHz: 16dBm (EIRP)
- 5 725 MHz – 5 825 MHz: 16dBm (EIRP)

- 5 150 MHz-5 350 MHz: for indoor use only.

Caution: Exposure to Radio Frequency Radiation

This equipment complies with EU radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20 cm between the radio device and the body.

Hardware environmental compliance

SMART Technologies supports global efforts to ensure that electronic equipment is manufactured, sold and disposed of in a safe and environmentally friendly manner.

Waste Electrical and Electronic Equipment and Battery regulations (WEEE and Battery Directives)

Electrical and electronic equipment and batteries contain substances that can be harmful to the environment and to human health. The crossed-out wheeled bin symbol indicates that products should be disposed of in the appropriate recycling stream and not as regular waste. See support.smarttech.com/kb/171166 for more information.

Batteries

The product contains a CR-2032 battery. Remove or dispose of batteries properly.

Perchlorate material: Battery contains perchlorate material. Special handling may apply. See dtsc.ca.gov/hazardouswaste/perchlorate.
