

## Specifications

# iQ appliance for SMART Board® interactive displays

## Model AM40

### Overview

The iQ appliance is designed specifically to work with SMART Board® 6000, 7000, 6000 Pro and 7000 Pro series interactive displays to provide a complete, all-in-one experience for classrooms or workplaces. This solution caters to a whole classroom, a small group collaboration, individual instruction, brainstorming sessions or meetings.

The iQ appliance gives you one-touch access to a full suite of SMART apps and third-party applications without connecting an external computer. These applications include the powerful digital whiteboard, a built-in web browser and wireless screen sharing across iOS, Android or Microsoft devices. Education models have a number of SMART Learning Suite applications, providing a simple, fully integrated experience between student devices and interactive displays.

Connect any Bluetooth®-enabled mobile device to the interactive display by scanning the Quick Response (QR) code on the screen. When you first connect your mobile device, you're directed to the App Store or Google Play to download the SMART kapp® app. After you install the app, you can connect to your interactive display and share notes with others. You can write notes with the provided pens and erase notes with the pens' erasers or with your palm or fist. Participants can also contribute to the session by writing or drawing directly from their mobile devices.

See [smarttech.com](https://smarttech.com) for more information about the iQ appliance for SMART Board interactive displays.

### Dimensions and weights<sup>1</sup>

#### Dimensions

#### Weight

1 lb 8 oz. (677 g)

#### Shipping dimensions

12" × 9 1/4" × 3" (30.4 cm × 23.4 cm × 7.5 cm)

#### Shipping weight

2 lb. 1 oz. (925 g)

<sup>1</sup>All dimensions ± 1/8" (0.3 cm). All weights ± 2 lb. (0.9 kg).

## Hardware

<b>Processor</b>	RK3399, Dual-core A72+Quad-core A53, 64 bits, 2GHz
<b>Memory</b>	4 GB DDR3L SDRAM
<b>Storage</b>	32 GB eMMC 5.1
<b>Wireless technology</b>	Bluetooth 4.1 802.11A/B/G/N/AC
<b>Capture options</b>	Establish a Bluetooth wireless connection with a supported mobile device (see below) by scanning the appliance's unique QR code
<b>Connectors</b>	HDMI 1.4 (1920 × 1080) output for external monitor USB 3.0 Type-A (×2) RJ45 Gigabit Ethernet <sup>2</sup>
