

## Specifications

# SMART kapp iQ

## SMART kapp iQ™ 65 board

### Overview

With a SMART kapp iQ™ 65 board, you can capture notes and ideas, present information and collaborate with others in simple but powerful ways.

Connect a Bluetooth®-enabled mobile device to the board by scanning the Quick Response (QR) code on the board's screen. When you first connect your mobile device, you're directed to the Apple App Store or Google Play™ to download the SMART kapp® app. After installing the app, you can connect to your board and share notes with others. You can write notes in black or red ink using the provided pens and erase notes with the pens' erasers or with your palm or fist.

The board's 4K ultra-high-definition resolution display provides optimal image clarity and viewing from any angle.

See [education.smarttech.com](http://education.smarttech.com) for more information about SMART kapp iQ.
