EU Declaration of Conformity

Hereby, SMART Technologies ULC declares that the radio equipment type OPS, AM30/AM40 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: www.smarttech.com/compliance

The frequency band and the maximum transmitted power in EU are listed below:

- 2400 MHz – 2483.5 MHz: 16 dBm (EIRP)
- 5150 MHz – 5350 MHz: 16 dBm (EIRP)
- 5470 MHz – 5725 MHz: 16 dBm (EIRP)

Innovation, Science and Economic Development Canada:

The maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limit; and

(iii) the maximum antenna gain permitted for devices in the band 5725-5825 MHz shall comply with the e.i.r.p. limits specified for point-to-point and non-point-to-point operation as appropriate.

(iv) Users should also be advised that high-power radars are allocated as primary users (i.e. priority users) of the bands 5250-5350 MHz and 5650-5850 MHz and that these radars could cause interference and/or damage to LE-LAN devices.

Radiation Exposure Statement:

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the antenna and all persons.

NOTE: This product has been configured to operate according to the FCC rules in the US.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. 5.15–5.25 GHz frequency band operation is restricted to indoor use only.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user’s authority to operate this equipment.

Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance 20 cm between the antenna and all persons.

NOTE: This product has been configured to operate according to the FCC rules in the US.

Outdoor operations in the 5150-5250 MHz are prohibited.

Innovation, Science and Economic Development Canada:

This device complies with RSS-247 of the ISED rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) this device must be operated in conjunction with a shielded cable and connector supplied by the manufacturer. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Safe handling of batteries:

- Do not dispose of batteries in a fire.
- Do not short-circuit the terminals of a battery.
- Do not disassemble, modify, or solder batteries.
- Do not expose batteries to excessive heat or cold.
- Keep batteries out of reach of children.

In the event of a battery leak:

- Do not inhale battery fumes.
- Do not ingest battery particles.
- Do not touch battery liquid.
- Do not use a damaged battery.

Recycle or dispose of batteries properly.

Smart Technologies ULC in the U.S. and/or other countries. All third-party products and company names may be trademarks of their respective owners. Contents are subject to change without notice.

Hardware environmental compliance

SMART Technologies supports global efforts to ensure that electronic equipment is manufactured, sold and disposed of in a safe and environmentally friendly manner.

Waste Electrical and Electronic Equipment and Battery regulations (WEEE and Battery Directives)

Electrical and electronic equipment and batteries contain substances that can be harmful to the environment and to human health. The crossed-out wheeled bin symbol indicates that products should be disposed of in the appropriate recycling stream and not as regular waste.

Batteries

The AMx0 appliance module contains a CR2032 coin cell. Recycle or dispose of batteries properly. See smarttech.com/compliance for more information.

Perchlorate material

The CR2032 coin cell contains perchlorate material. Special handling may apply. See dtsc.ca/hazardouswaste/perchlorate
