

# Important Information

## WARNING

- Do not use this unit's polarized plug with an extension cord receptacle or other outlets unless the prongs can be fully inserted.
- Refrain from opening the cabinet because there are high voltage components inside. Refer servicing to qualified service personnel.
- To reduce the risk of electric shock, make sure the power cord is unplugged from the power outlet. To fully disengage the power to the unit, please the power cord from the power outlet.
- Do not remove the back of the unit. There are no user serviceable parts inside. Refer servicing to qualified service personnel.
- The  symbol warns the user that uninsulated voltage within the unit may have sufficient magnitude to cause electric shock. Therefore, it is dangerous to make any kind of contact with any part inside this unit.
- The  symbol alerts the user that important literature concerning the operation and maintenance of this unit has been included. Therefore, it should be read carefully in order to avoid any problems.

## CAUTION

- Please use the power cord provided with this display. If a power cord is not supplied with this equipment, please contact your supplier. For all other cases, please use a power cord that matches the AC voltage of the power outlet and has been approved by and complies with the safety standard of your particular country. The power supply cord you use must have been approved by and comply with the safety standards of your country. (Type H05VV-F 3G 1mm<sup>2</sup> should be used in Europe)

FOR OPTIMUM PERFORMANCE, PLEASE NOTE THE FOLLOWING WHEN SETTING UP AND USING THE MULTI-FUNCTION MONITOR:

- Do not spill any liquids into the cabinet or use your monitor near water.
- Do not insert objects of any kind into the cabinet slots, because they can touch dangerous voltage points, which can be harmful or fatal or may cause electric shock, fire or equipment failure.
- Do not place heavy objects on the power cord. Damage to the cord can cause electric shock or fire.
- Do not place this product on a sloping or unstable cart, stand or table, because the monitor can fall, and incur serious damage to the monitor.
- Do not mount this product face up, face down or upside down for an extended period of time because it can permanently damage the screen.
- In the UK, use a BS-approved power cord with molded plug having a black (13A) fuse installed for use with this monitor.
- Do not place objects on the monitor and do not use the monitor outdoors.
- The lamps in this product contain mercury. Please dispose according to state, local or federal law.
- Do not bend, crimp or otherwise damage the power cord.

**CAUTION**

- If glass is broken, handle with care.
- Do not cover vent on monitor.
- Do not use monitor in high temperature, humid, dusty or oily areas.
- If monitor or glass is broken, do not come in contact with the liquid crystal, and handle with care.
- Allow adequate ventilation around the monitor, so that heat can properly dissipate. Do not block ventilated openings or place the monitor near a radiator or other heat sources. Do not put anything on top of the monitor.
- The power cable connector is the primary means of detaching the system from the power supply. The monitor should be installed close to a power outlet, which is easily accessible.
- Do not move or mount this product by hanging a rope or wire to the backside handle. Do not mount or secure this product by using the backside handle. It can fall and cause personal injury.
- Handle with care when transporting. Save packaging for transporting.
- If using the cooling fan continuously, it is recommended to wipe and clean the holes a minimum of once a month.
- Clean the holes in the back of the monitor to remove dirt and dust at least once a year.
- When using a LAN cable, do not connect this cable to a peripheral device with wiring that might have excessive voltage.
