Specifications
SMART Board® 7075 interactive display with iQ and Intel® Compute Card
Model SBID-7375

Overview
The SMART Board® 7075 interactive display with iQ and Intel® Compute Card is the hub of your classroom. iQ technology connects devices, lesson content and pedagogically relevant software to create a cohesive educational experience. PC-free embedded computing provides one-touch access to a diverse suite of SMART applications—Notebook lessons, workspaces, gamification activities and whiteboard—and collaborative tools, such as wireless screen sharing and a web browser. With minimal network integration, there’s no need for wires, cables or manual software and firmware updates.

Install an Intel Compute Card in the appliance to provide a complete Windows® 10 solution at your fingertips. Choose from three compute card options to provide a consistent room-to-room Windows Full HD experience.

The 75" 4K ultra-high-definition LED display provides optimal image clarity and wide viewing angles. With the Pen ID™ feature, you can assign different appearances to the four pens and write or draw over any application in digital ink.

Object Awareness™ allows you to perform mouse functions with your finger, write in digital ink with the pen, and erase with your palm or eraser—all without switching tools or modes. You can use a variety of gestures in applications, and four users can write or draw at the same time.

See education.smarttech.com for more information.

As an ENERGY STAR® certified signage display, the SMART Board 7075 interactive display meets strict energy efficiency guidelines set by the U.S. Environmental Protection Agency and Department of Energy.

Hardware

Interaction

Touch technology

HyPr Touch™ (Hybrid Precision Touch) proprietary hybrid system, which greatly improves upon its InGlass™ core by optimizing both touch and pen performance, resulting in virtually no lag and zero contact detect height.

Multitouch capabilities

Up to 16 simultaneous interaction points (combination of 10 finger touch points, four pen touch points and two eraser touch points)

Object Awareness

Behavior adjusts automatically to the tool or object you’re using, whether it’s a pen, finger, eraser, or palm.

Pen ID

Four people can write independently and simultaneously, using different colored ink.

Display

Type

LED

Aspect ratio

16:9

Optimal resolution

4K UHD (3840 × 2160) at 60 Hz

Horizontal frequency

135 kHz

Vertical frequency

60 Hz

1All dimensions ± 1/8” (0.3 cm). All weights ± 2 lb. (0.9 kg).

2Only up to 10 touch points and no pen or eraser support on Chrome OS™ operating system.
