Specifications
SMART Board® 7075 display with SMART Learning Suite
Model SBID-7075-V2

Overview
The SMART Board® 7075 interactive display combines a premium touch experience with the power of SMART Learning Suite, including SMART Notebook® software.

The 75” 4K ultra-high-definition LED display provides optimal image clarity and wide viewing angles. With the Pen ID™ feature, you can assign different appearances to the four pens and write or draw over any application in digital ink.

Object Awareness™ allows you to perform mouse functions with your finger, write in digital ink with the pen, and erase with your palm or eraser—all without switching tools or modes. You can use a variety of gestures in applications, and four users can write or draw at the same time.

## Cable requirements

### HDMI
- Maximum length: 23' (7 m)

**NOTES**
- Use only certified HDMI cables that have been tested to support the performance standard you require.
- The performance of cables longer than 23' (7 m) is highly dependent on the cable’s quality.

### USB 2.0
- USB 2.0 certified Hi-Speed (480 Mbps) support
- Maximum length: 16' (5 m)

### USB 3.0
- USB 3.0 certified SuperSpeed (5 Gbps) support
- Maximum length: 9' (3 m)

**NOTES**
- SMART supports only installations that use a 9' (3 m) direct connection or a 16' (5 m) connection that includes an AC-powered active USB extender.
- You might be able to use higher-grade cables that are longer than 9' (3 m). If you have problems with such a cable or an extender of any type, test the connection with a 9' (3 m) or shorter cable before contacting SMART Support.
