

Important information for your SMART Board interactive display

WARNING

- Failure to follow the installation instructions dispatched with your SMART product could result in personal injury and product damage that may not be covered by your warranty.
- Don't open or disassemble the SMART product. You risk electrical shock from the high voltage inside the casing. Opening the casing also voids your warranty.
- Do not stand (or allow children to stand) on a chair to touch the surface of your SMART product. Rather, mount the product at the appropriate height.
- To reduce the risk of fire or electric shock, do not expose the SMART product to rain or moisture.
- If your SMART product requires replacement parts, make sure that the service technician uses replacement parts specified by SMART Technologies or parts with the same characteristics as the original.
- Ensure that any cables extending across the floor to your SMART product are properly bundled and marked to avoid a trip hazard.
- Do not insert objects inside the cabinet ventilation holes, because they could touch dangerous voltage points and cause electric shock, fire or product damage that may not be covered by your warranty.
- Do not place any heavy objects on the power cable. Damage to the cable could cause shock, fire or product damage that may not be covered by your warranty.
- Use only extension cords and outlets into which this product's polarised plug can be fully inserted.
- Use the power cable provided with this product. If a power cable is not supplied with this product, please contact your supplier. Use only power cables that match the AC voltage of the power outlet and that comply with your country's safety standards.
- If the glass is broken, do not touch the liquid crystal. To prevent injury, handle glass fragments with care when disposing of them.

IMPORTANT INFORMATION FOR YOUR SMART BOARD INTERACTIVE DISPLAY

- Do not move or mount the interactive display by connecting rope or wire to its handles. Because the interactive display is heavy, rope, wire or handle failure could lead to personal injury.
- To prevent personal injury, do not attempt to mount or carry the interactive display using your own strength. Instead, use a lifting device with the M12 attachable eyebolts included. The eyebolts are not post-installation hardware.
- Only use VESA®-approved mounting hardware.
- Lamps in this product contain mercury. Handle lamps with care. Comply with local, regional or national law when recycling or disposing of lamps from this product.
- Disconnect all power cables for your interactive display from the wall socket and seek assistance from qualified service personnel when any of the following occurs:
 - The power cable or plug is damaged
 - Liquid is spilled into the interactive display
 - Objects fall into the interactive display
 - The interactive display is dropped
 - Structural damage such as cracking occurs
 - The interactive display behaves unexpectedly when you follow operating instructions
