**Waking up your display**
To wake the display, press the Power button on the front control panel.
To return the display to sleep, press the Power button again.

**Writing and erasing on your display**
Pick up one of the display’s pens and use it to write or draw in digital ink.
Move your fist or palm over the digital ink you want to erase.

**Show the connected computer’s desktop**
After connecting a computer, press Input on the front control panel. Tap the input you want to view on the Input selection menu.

**Use the iQ features**
The display includes iQ features that you can use without connecting a computer. To access those features, tap the Home button at the bottom of the screen.
OR
Press Input on the front control panel and tap OPS.

You can then use all the iQ features described in the rest of this guide.
