Specifications
SMART Board® MX286-V2 interactive display with iQ
Model SBID-MX286-V2

Overview
The SMART Board® MX286-V2 interactive display has all the essentials educators need for bringing the devices students love into any learning environment. This display is great value for schools that need an interactive display on a budget. The 86” 4K Ultra HD resolution display includes a one-year subscription to SMART Learning Suite and a standard three-year warranty.

The iQ experience offers one-touch access to SMART Learning Suite applications, including SMART Notebook® lessons and activities. You can also access collaboration tools, including a digital whiteboard, a web browser, and wireless screen sharing.

Installation requirements

**Interactive display** See the SMART Board MX (V2) and MX (V2) Pro series interactive displays installation and maintenance guide (smarttech.com/kb/171555)

**IMPORTANT**
The display needs an internet connection for downloading and installing important updates. Ask the network administrator to configure the network correctly for the iQ experience. For more information about network configuration, see Connecting a SMART display with the iQ experience to a network.

**Room computers and guest laptops**

**General requirements** See SMART Notebook software release notes

**4K UHD** Video card that can support 3840 x 2160 resolution at 60 Hz
See Minimum requirements for Ultra High Definition or 4K on your interactive flat panel

---

4HDCP is always enabled. Content is shown in 480p resolution if the external display doesn’t support HDCP.
Cable requirements

<table>
<thead>
<tr>
<th>HDMI</th>
<th>Maximum length: 23' (7 m)</th>
</tr>
</thead>
</table>

**NOTES**
- Use only certified HDMI cables that have been tested to support the performance standard you require.
- The performance of cables longer than 23' (7 m) is highly dependent on the cable’s quality.

<table>
<thead>
<tr>
<th>USB 2.0</th>
<th>USB 2.0 certified  Hi-Speed (480 Mbps) support  Maximum length: 16' (5 m)</th>
</tr>
</thead>
<tbody>
<tr>
<td>USB 3.0</td>
<td>USB 3.0 certified  SuperSpeed (5 Gbps) support  Maximum length: 9' (3 m)</td>
</tr>
</tbody>
</table>

**NOTES**
- SMART supports only installations that use directly connected video and USB cables, AC-powered extenders, or USB extenders purchased from SMART.
- You might be able to use higher-grade cables that are longer than specified. If you have problems with such a cable or an extender of any type, test the connection with a shorter cable before contacting SMART Support.

**Important**
Using cables that exceed these maximum lengths can produce unexpected results, such as degraded picture quality or USB connectivity. Refer to *Installation best practices for SMART products* (smarttech.com/kb/171035) for comprehensive information about cables and extensions for SMART hardware products.
