

Release notes

SMART Meeting Pro™ software

About these release notes

These release notes summarize the changes in SMART Meeting Pro™ software (formerly SMART Meeting Pro 2010 software) and its service packs.

Product information

SMART Meeting Pro software is designed specifically for meeting management on SMART Board™ interactive whiteboards.

The SMART Business Toolbar and intuitive interactive whiteboard features make SMART Meeting Pro software easy to use, so you can deliver better meetings and better results.

RELEASE NOTES

SMART Meeting Pro software

SMART Meeting Pro 2.2 SP1 software update

About this release

This release includes support for new SMART interactive products and bug fixes.

Software component version numbers

Component	Version	Date (if applicable)
SMART Meeting Pro software	2.2.141.1	March 31, 2011
SMART Product Drivers	10.7.182.1	March 1, 2011
SMART GoWire™ auto-launch cable updater	2.2.203.1	March 31, 2011
SMART Product Drivers on the SMART GoWire auto-launch cable	10.7.90.1	March 1, 2011
Visual C++® 2008 SP1 Redistributable	9.0.30729.17	

Computer requirements

No change from previous computer requirements.

Highlights

- Support for the wireless connection for SMART Board 800 series interactive whiteboards
- Support for SMART Board 8070i interactive displays

Resolved issues

- Digital ink no longer shifts when you set the display to an aspect ratio other than 4:3.
- Digital ink displays more quickly and is thicker in PowerPoint® presentations.
- The Restore Ink bubble is better positioned on the display.
- A Restore Ink button has been added to Microsoft® Office.
- The save-on-close feature is improved.
- If you take a screen capture of your notes on the Ink Layer, messages that appear will be complete.
- You can save a PowerPoint file in SMART Meeting Pro software.

RELEASE NOTES

SMART Meeting Pro software

Translation issues

- When you press the SMART Meeting Pro icon, the names of the SMART Tools are in the language you installed.
- In the *SMART Software Activation* window, the Product Key Help link is in the language you installed.

Known issues

- When you disconnect your SMART GoWire cable before you exit, SMART Meeting Pro software appears.
- When you connect your SMART GoWire cable to a computer that is not connected to an interactive whiteboard, the SMART GoWire cable stops responding instead of exiting.
- If you use the Reset Room feature while the Spotlight or Screen Shade tool is in use, those tools permanently disable until you exit and then start SMART Meeting Pro software.

Translation issues

- When you work with text in Whiteboard mode, the title on the *Fonts* toolbar is in English, regardless of the language you install.
- The SMART Video Recorder title bar is in the incorrect language when you install your software in Dutch or German.

RELEASE NOTES

SMART Meeting Pro software

SMART Meeting Pro 2.2 software update

About this release

This is the 2.2 release for SMART Meeting Pro software. This release contains the SMART GoWire auto-launch cable updater, new features and bug fixes.

Software component version numbers

Component	Version	Date (if applicable)
SMART Meeting Pro software	2.2.140.0	November 25, 2010
SMART Product Drivers	10.7.82.0	November 19, 2010
SMART GoWire auto-launch cable updater		December 1, 2010
SMART Product Drivers on the SMART GoWire auto-launch cable	10.7.80.0	
Visual C++® 2008 SP1 Redistributable	9.0.30729.17	

Computer requirements

- Windows® XP SP3 or Windows 7 operating system (disabling Advanced Aero® theme recommended)
- DirectX® technology 9 or later
- 2 GHz dual core processor, or faster (quad-core recommended)
- 1 GB of RAM (Windows XP operating system) or 4 GB of RAM (Windows 7 operating system)
- Discrete 128 MB VRAM and support for DirectX 9 technology
- 1 GB of free hard disk space (additional free space required during installation)
- 10 Mbps network connection (100 Mbps recommended) supporting TCP/IP

RELEASE NOTES

SMART Meeting Pro software

Supported languages

- English (U.S.)
- English (United Kingdom)
- Chinese (Simplified)
- Czech
- Danish
- Dutch
- French (France)
- German
- Italian
- Japanese
- Norwegian
- Portuguese (Brazil)
- Portuguese (Portugal)
- Russian
- Spanish (Mexico)
- Spanish (Spain)
- Swedish
- Turkish

Highlights

- You can add, delete or clone a Whiteboard page by right-clicking its thumbnail image in the Page Sorter.
- You can create shape, line and text objects using the Shapes and Text tools.
- You can place a link on a page or on an object on a page to a website, to another page in the file, to a file on your computer or to an attachment.
- You can rotate an object to any angle you want on your Whiteboard page. You can also duplicate an object over and over using the clone feature.
- You can manipulate objects you create by accessing the Object menu. You can lock, group and flip objects. You can also change the order of stacked objects and manipulate object properties.
- You can insert images in a variety of file formats to your Whiteboard page by selecting **Insert > Image** from the menu bar.
- Autosave provides automatic protection and recovery of your documents in the event of a system failure.
- Enhanced support for SMART interactive products that recognize multitouch gestures and Touch Recognition. You can use multitouch gestures to navigate Whiteboard pages, manipulate objects and move and flick objects across your screen.
- On a SMART Board 800 series interactive whiteboard, two users can create and manipulate objects in SMART Meeting Pro software at the same time.
- Added support for the new SMART Board 800 series interactive whiteboard and the SMART Board 8070i interactive display.

RELEASE NOTES

SMART Meeting Pro software

- You can update your SMART GoWire auto-launch cable for SMART Meeting Pro software at smarttech.com/software.

Known issues

- If you use the Reset Room feature when the Spotlight or Screen Shade tool is in use, those tools permanently disable until you exit and start SMART Meeting Pro software.
- If you take a screen capture of your notes on the Ink Layer, you might receive messages that appear incomplete.
- If you save a PowerPoint file in SMART Meeting Pro software, the software stops responding or behaves unexpectedly. A Windows dialog box might appear indicating PowerPoint has stopped responding. Start PowerPoint first, and then repeat the save file operation from SMART Meeting Pro software.

Translation issues

- When you work with text in Whiteboard mode, the title on the *Fonts* toolbar is in English, regardless of the language you install.
- The SMART Video Recorder title bar is in the incorrect language when you install your software in Dutch or German.
- When you press the SMART Meeting Pro icon, some of the names of the SMART Tools are in English, regardless of the language you install.
- In the *SMART Software Activation* window, the Product Key Help link is in English, regardless of the language you install.

SMART Meeting Pro software

SMART Meeting Pro 2.1 SP1 updates

About this release

This is the 2.1 SP1 release for SMART Meeting Pro software. This release contains new features and bug fixes and is compatible with the Windows 7 operating system.

Software component version numbers

Component	Version	Date (if applicable)
SMART Meeting Pro software	2.1.160.1	August 16, 2010
SMART Product Drivers	10.6.175.2	July 30, 2010

Computer requirements

Operating systems

- Windows XP SP3
- Windows 7 for 32-bit and 64-bit processors

Hardware requirements

No change from previous *Hardware requirements* on page 12.

Software requirements

No change from previous *Software requirements* on page 12.

SMART hardware supported

No change from previous *SMART hardware supported* on page 12.

RELEASE NOTES

SMART Meeting Pro software

Supported languages

- Chinese (Simplified)
- Chinese (Traditional)
- Czech
- Danish
- Dutch
- English
- English (United Kingdom)
- Finnish
- French (France)
- German
- Greek
- Hungarian
- Icelandic
- Japanese
- Norwegian
- Polish
- Portuguese (Brazil)
- Portuguese (Portugal)
- Romanian
- Russian
- Spanish (Mexico)
- Spanish (Spain)
- Swedish
- Turkish

Highlights

- Full Whiteboard mode
- Save your meeting notes as a .pdf or a .ppt file.
- Available on the SMART GoWire auto-launch cable for SMART Meeting Pro software (GW-MP).
- You can e-mail .pdf, .notebook and .ppt files to meeting participants.

Resolved issues

- If you remove SMART Meeting Pro software while it's running and you have unsaved content open, a dialog box appears asking if you want to save your changes. After 30 seconds SMART Meeting Pro software closes without saving and you're unable to interact with the left margin of your desktop. If you log off and log on to your computer, you're once again able to interact with the left margin of your desktop.
- If you're using the SMART GoWire auto-launch cable for SMART Meeting Pro software (GW-MP) and you disconnect it while SMART Meeting Pro software is running, the software closes without saving.

No change from previous *SMART hardware supported* on page 12.

RELEASE NOTES

SMART Meeting Pro software

Supported languages

- English (U.S.)
- English (United Kingdom)
- Chinese (Simplified)
- Chinese (Traditional)
- Czech
- Danish
- Dutch
- Finnish
- French (France)
- German
- Greek
- Hungarian
- Icelandic
- Japanese
- Norwegian
- Polish
- Portuguese (Brazil)
- Portuguese (Portugal)
- Romanian
- Russian
- Spanish (Mexico)
- Spanish (Spain)
- Swedish
- Turkish

Highlights

- SMART Meeting Pro software is available online or by CD installation.
- You can move the main toolbar to either side of the interactive whiteboard, allowing you to choose where to stand when presenting.
- You can change your pen to a green or yellow highlighter to emphasize areas of the whiteboard.
- In addition to the calligraphy pen that smoothes your writing, you can use a standard pen that doesn't. Your system administrator can designate either as the default pen type during or after installation.
- You can resize objects in the whiteboard area.
- You can undo and redo actions.
- You can cut, copy and paste from SMART Meeting Pro software to other applications and vice versa.
- You can take a screen capture with a button on the business toolbar.
- You can print the .notebook file to the designated printer for your computer.
- You can save your meeting notes as a .pdf file.
- You can e-mail your .pdf or .notebook file to meeting participants. Your system administrator can configure e-mail settings during or after installation.
- Your SMART Meeting Pro software will check for software updates every 30 days. You can set this as frequently as every day, or as rarely as 60 days.

RELEASE NOTES

SMART Meeting Pro software

- You can reorder pages in the page sorter by dragging and dropping them.
- Forced compatibility between SMART Meeting Pro software and your SMART Board interactive whiteboard drivers.

Resolved issues

- Page Sorter is updated correctly when you add or delete pages.
- You are always able to exit SMART Meeting Pro software using the icon in the notification area.

Known issues

- When you use the eraser brush to remove highlighter, erasing may lag behind your brush position. If applying more than minor touch-ups, you may prefer to select a large highlighted area and delete it by pressing **Edit > Delete**.
- If you are using the SMART Write keyboard, and then pick up a pen from the pen tray, the ink layer blocks the Write keyboard. Use the SMART Classic keyboard instead.
- If you touch the upper right corner of the interactive whiteboard, the ink layer might open blocking the red close button. If you resize the application to move the red close button from the upper right corner, it should become accessible and functional.
- If you remove SMART Meeting Pro software while it is running, the left margin of your desktop becomes unavailable. Close SMART Meeting Pro software before removing it. If you didn't, log off the computer and log on again to restore your desktop.
- If you don't save the writing on your ink aware application before pressing **Reset Room**, you will experience Windows error messages as SMART Meeting Pro software resets. The writing on the ink aware application is lost.
- When you press **Show Desktop** on the task bar, SMART Meeting Pro software is no longer displayed. Press **Show Desktop** a second time to have SMART Meeting Pro software displayed again.
- When you press an international link in SMART Meeting Pro software, you might experience the "Page Not Found" message. Go to smarttech.com and press the International link to obtain international support.
