

SMART Meeting Pro® 4.2 and Bridgit® software

Introduction

Bridgit® conferencing software is integrated with SMART Meeting Pro® software. This quick reference shows you how to use Bridgit software with SMART Meeting Pro software during a meeting.

Before your meeting

You can set up an appointment in Microsoft® Outlook® as a Bridgit meeting.

1. Create a new appointment, or open an existing one.
2. Select **This is a SMART Bridgit meeting** in the *SMART Scheduler Meeting* area.

3. Click **Settings** to specify a meeting password.

When you log on to the meeting room computer, the meeting name and password that you specified in the appointment appear in the Bridgit Collaboration Bar (above). Content you included in the appointment's body appears in Whiteboard mode, and attachments appear in the Organizer.

TIP

If you didn't set up a Bridgit meeting in advance and the meeting room is available for at least 30 minutes, SMART Meeting Pro software sets up an ad hoc meeting automatically when you log on to the meeting room computer.

During your meeting

After you log on to the meeting room computer, you can manage the Bridgit meeting using the Bridgit Collaboration Bar.

To send an invitation to remote participants

1. Press **Menu** on the Bridgit Collaboration Bar, and then select **E-mail Invitation to Others**.
The *Send E-mail Invitation* dialog box appears.
2. Enter the participants' email addresses in the *To* box, and then press **Send**.

To view a remote participant's screen

Press **View Screens** on the SMART Business Toolbar. If one of the remote participants is sharing a screen, the screen appears. If no one is sharing a screen, a Bridgit window appears showing the meeting name.

TIP

You can use the pen and eraser tools to write, draw and erase notes on the participant's screen.

To join another meeting

1. Press **Menu** on the Bridgit Collaboration Bar, and then select **Join Another Meeting**.
The *SMART Bridgit Software* window appears.
2. Select the meeting you want to join from the *Meeting name* drop-down list, and then enter the meeting password.
3. If the system administrator has enabled VoIP, select **Yes** under *Do you want to use your computer for meeting audio?*
OR
If you will be using another audio option, select **No**.
4. Click **Join Meeting**.
