Other requirements	Microsoft® .NET Framework 4.5.1 Microsoft Visual Studio® Tools for Office Adobe® Reader® 11.0.10 or later (for SMART Ink plugin)	Microsoft .NET Framework 4.5.1 Microsoft Visual Studio Tools for Office Adobe Reader 11.0.10 or later (for SMART Ink plugin)	Microsoft .NET Framework 4.5.1 Microsoft Visual Studio Tools for Office Adobe Reader 11.0.10 or later (for SMART Ink plugin)

¹Operating systems and other third-party software released after this SMART software might not be supported

²Additional free space required during installation

SMART Meeting Pro 4.3 software

Versions	Windows operating systems	4.3.150.0
Related software	SMART Product Drivers 12.9 SMART Ink 5.2	smarttech.com/kb/171085 smarttech.com/kb/171189
Highlights	Support for SMART Board 7000 with iQ and SMART Board 7000 with iQ Pro interactive displays.	
Resolved issues	This release resolves an issue where the SMART Business toolbar disappears when you write notes in digital ink, open a web browser or start an application.	
Known issues	<ul style="list-style-type: none">• SMART Ink Document Viewer is not set as the default PDF viewer even if you select it as the default PDF viewer during installation.• Performance is slow if you connect your computer to two interactive displays and users interact with the software on those interactive displays the same time.• When you restart your computer, any icons on the desktop move to the right.• If you open a browser while in Desktop mode, you can't open Whiteboard mode unless you minimize the browser.• If you create a SMART Ink note while in Desktop mode and then attempt to orient the interactive display, the SMART Ink note displays over the orientation screen.• If you choose the Pen tool on the SMART Business Toolbar and then exit SMART Meeting Pro software, digital ink appears when you touch the screen.• If you choose the Eraser tool on the SMART Business Toolbar and then use your palm or fist to erase digital ink, the size of the eraser doesn't change accordingly.	

SMART Meeting Pro 4.2 software

Versions	Windows operating systems	4.2.86.0
Related software	SMART Product Drivers 12.6 SMART Ink 4.2 Bridgit 4.7 software	smarttech.com/kb/171085 smarttech.com/kb/171025 smarttech.com/kb/170923
Resolved issues	<ul style="list-style-type: none"> • SMART Meeting Pro 4.2 software resolves an issue that caused the software to stop responding if you took a screen capture using the Screen Capture toolbar and then attempted to take a second screen capture. • The performance of rectangular area screen captures is improved over previous versions of SMART Meeting Pro software. 	
Known issues	<ul style="list-style-type: none"> • SMART Ink Document Viewer is not set as the default PDF viewer even if you select it as the default PDF viewer during installation. • Performance is slow if you connect your computer to two interactive displays and users interact with the software on those interactive displays the same time. • When you restart your computer, any icons on the desktop move to the right. • If you open a browser while in Desktop mode, you can't open Whiteboard mode unless you minimize the browser. • If you create a SMART Ink note while in Desktop mode and then attempt to orient the interactive display, the SMART Ink note displays over the orientation screen. • If you choose the Pen tool on the SMART Business Toolbar and then exit SMART Meeting Pro software, digital ink appears when you touch the screen. • If you choose the Eraser tool on the SMART Business Toolbar and then use your palm or fist to erase digital ink, the size of the eraser doesn't change accordingly. 	

SMART Meeting Pro 4.1 software

Versions	Windows operating systems	4.1.351.0
Related software	SMART Product Drivers 12.3 SP1 SMART Ink 3.1 SP1 Bridgit 4.6 SP1 software	smarttech.com/kb/170792 smarttech.com/kb/170832 smarttech.com/kb/170412
Highlights	<ul style="list-style-type: none"> • Common installer and user interface for SMART Meeting Pro software • Support for Windows 10 operating system • PDF file import • Support for Office 365™-hosted Microsoft Exchange servers (see kb.smarttech.com/?q=17348) • SMART Ink plugin for Adobe Acrobat® Reader 	
Resolved issues	<ul style="list-style-type: none"> • You can use SMART Ink with Cisco software. • In Windows 10 operating system, you can write or draw in digital ink over PowerPoint® presentations when the computer's screen is extended to a second display. • This release resolves several issues related to high DPI displays. 	

SMART MEETING PRO 4.X SOFTWARE

Known issues

- If SMART Meeting Pro software's calligraphic settings and the SMART interactive product's calligraphic settings don't match, you might be able to select line styles in SMART Ink that aren't supported by SMART Meeting Pro software.
- In Windows 8.1 operating system, you might not be able to write or draw in PowerPoint presentation mode after inserting a new slide from the SMART Ink toolbar.
- In Windows 8.1 operating system, the first pen stroke you write or draw in PowerPoint presentation mode might not be accurate.
- In Windows 10 operating system, pressing an object in a Microsoft Office 2010 application with your finger might select the object and draw in digital ink at the same time.
- Bridgit software isn't supported by Windows 10 operating system.
