SMART Meeting Pro™ Premium 2.3

About these release notes

These release notes summarize the changes in SMART Meeting Pro™ Premium software 2.3.

Product information

SMART Meeting Pro Premium software is SMART's second-generation collaborative meeting room software solution that integrates an easy-to-use interactive whiteboard application, SMART Product Drivers, an enhanced SMART Bridgit™ software conferencing client and multiple display management. When you install SMART Meeting Pro Premium software on a meeting room computer connected to a SMART product, such as an interactive whiteboard or an interactive display, you automatically have touch control and can begin to use this SMART business solution.

To take advantage of SMART Meeting Pro Premium software room-to-room meetings, and to include local and remote participants in your meeting, you must install and configure a SMART Bridgit Server.

i NOTES

- SMART Meeting Pro 1.1 software users should upgrade to SMART Meeting Pro Premium software to retain their collaboration capabilities.
- You can download SMART Bridgit software from smarttech.com/software.

Known issues

- Some text in the Organizer view hasn't been translated into languages other than English.
- Known SMART GoWire auto-launch cable issues:
 - SMART Product Drivers 10.8 on the SMART GoWire auto-launch cable disables Windows 7 multitouch features. Multitouch features work in SMART Meeting Pro Premium software and are available in other applications that support Windows 7 multitouch when the SMART GoWire auto-launch cable isn't connected.
