

Comparison

SMART Notebook® 17.1 software

You can install SMART Notebook® 17.1 collaborative learning software on Windows® and Mac computers. SMART Notebook software has a comparable set of features across the two operating systems. However, differences in the operating systems result in minor differences in the features of SMART Notebook software on the two operating systems. This document summarizes those differences.

Feature	Windows operating system	OS X operating system software
Edit groups	To edit groups, open the Page Sorter tab. Press and drag to rearrange groups and use a group’s menu arrow to move it up or down, rename it, delete it, or to create a new group.	To edit groups, open the Page Sorter tab, press a group’s menu arrow, and then select Edit Page Groups . Groups appear in the page area where you can create, rename, move, and delete them.
Open multiple files at the same time	To open multiple files at the same time, start an instance of SMART Notebook software for each file you want to open.	To open multiple files at the same time, select File > Open in SMART Notebook software. You can save all open files by selecting File > Save All .
Save and export files automatically	You can save or export files every time you move to another page in the file or at regular intervals (1, 5, 15 or 30 minutes).	Not supported.
Attach files to email messages	You can attach files (or PDF versions of files) to email messages by selecting File > Send To .	You can attach files to email messages using an email program such as Mail.
