SMART Notebook® basic version

With SMART Notebook® collaborative learning software, you can create and deliver engaging, interactive lessons that include graphics, text, tables, lines, shapes, animations, and more. When you present your lessons, you can use digital ink to make notes on the page about your students' questions, comments, and suggestions.

You can open .notebook files in SMART Notebook software on a Windows or Mac computer. You can also export your file in a variety of formats, including HTML and PDF.

SMART Notebook basic version is free software designed for use with a SMART Board® interactive display and includes free updates.
