Quick Reference

SMART Board™ Start Center for Macintosh Computers

Start Center is a compact, movable toolbar that features your most frequently used SMART Board features and applications.

Opening the Start Center

To open the Start Center, press the **SMART Board Tools** icon in the Dock. The Start Center will appear on your screen.

What Do the Buttons Do?

The Start Center buttons launch commonly used applications and tools to customize the Start Center.

Notebook™ software
Create a presentation that's full of colorful clip art, Macromedia Flash objects, graphics and text from a variety of sources.

SMART Recorder
Record everything you do on the interactive screen. If you have a microphone connected, you can also record a narration of your actions.

Instant conferencing using Bridgit™ software
Bridgit conferencing software is a client/server application that lets you share applications and information with anyone, anywhere in the world.

SMART Keyboard
An on-screen, touch sensitive keyboard so that you can add text to an application or dialog box.

Floating tools
This versatile toolbar, including utilities such as on-screen Pen tools and an area capture button, floats over any open application on your interactive product.

SMART Board Control Panel
Configure your interactive product and SMART Board software. For example, you can change the color and thickness of your Pen tools, or change language settings.

Start Center Help
Searchable Help that answers any questions you have about the Start Center or SMART Board software.

Customizing the Start Center

To customize the Start Center

1. Press the **SMART Board Tools** icon in the Dock.

2. Press **Configure Tools** at the top of the screen.

3. Select **Start Center Options**.

To add or remove buttons from the Start Center, drag them from the list of available buttons onto the Start Center toolbar. Reverse the process to remove items. For example, you can add a Screen Shade button to the Start Center to gradually reveal information during presentations.
