

# SMART Board™ Software Version 9.5 Toolbars

---

The following toolbars are available in SMARTBoard software version 9.5 for Windows® operating systems.

## Start Center Toolbar

The Start Center toolbar appears automatically when you perform a default installation. To access Start Center at any time, double-press the **SMART Board** icon  or press the **SMART Board** icon once and select **Start Center**. The first time Start Center opens, the following buttons appear.

## Customizing Start Center

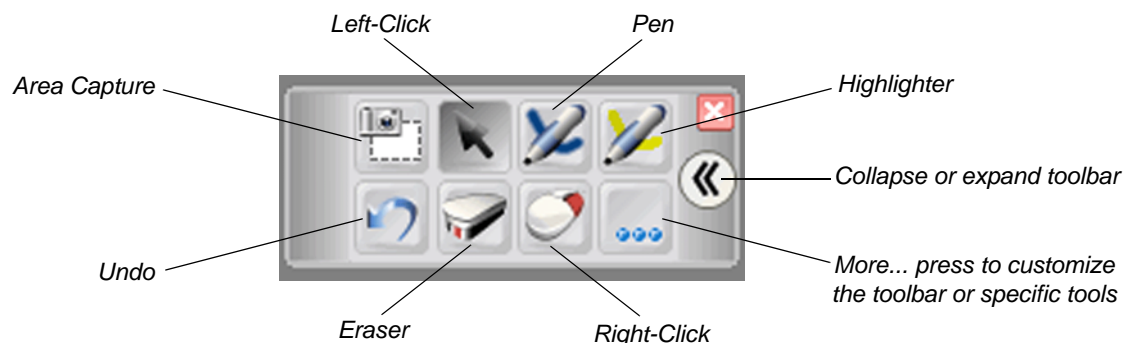

Start Center can hold up to 11 icons (plus the More button) at any one time. To choose which buttons appear in Start Center, press the **More**  button and select **Customize Start Center**. The additional buttons are:

Button	Function
	Open your operating system's Calculator program
	Open the Screen Magnifier to enlarge any portion of the screen
	Open the Pointer to draw attention to a specific screen item
	Open the Screen Shade to hide a portion of the screen
	Open the Spotlight to light portions of the screen
	Open the Screen Capture toolbar to capture an image to Notebook software

You can also add applications and files to Start Center, such as your Internet browser, word documents or spreadsheets.

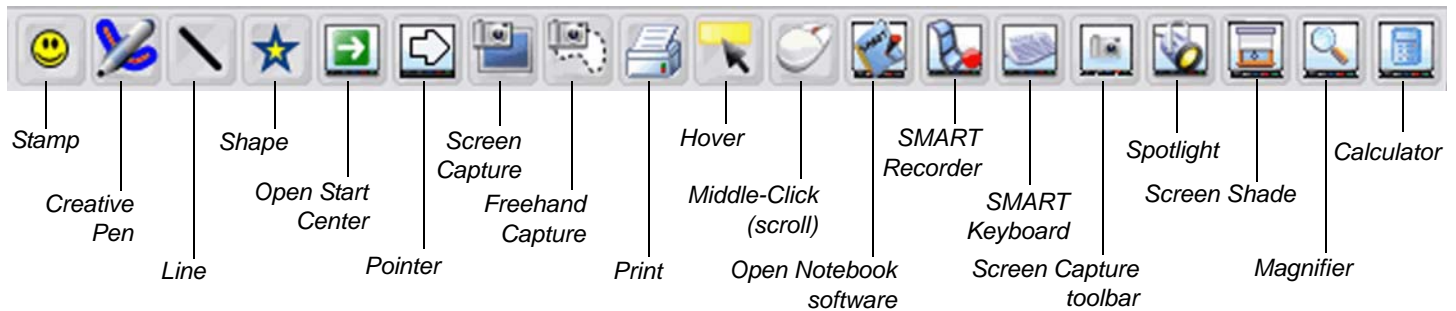

## Floating Tools Toolbar

When you press the **Floating Tools** button in **Start Center** or select **Floating Tools** from the **SMART Board menu**, the *Floating Tools* toolbar appears.

## Customizing Floating Tools

Press the **More** button in Floating Tools and select **Customize Floating Tools** to choose from a variety of toolbar buttons. You can choose as many buttons as you'd like to fully customize Floating Tools with the buttons you need. The additional buttons are:

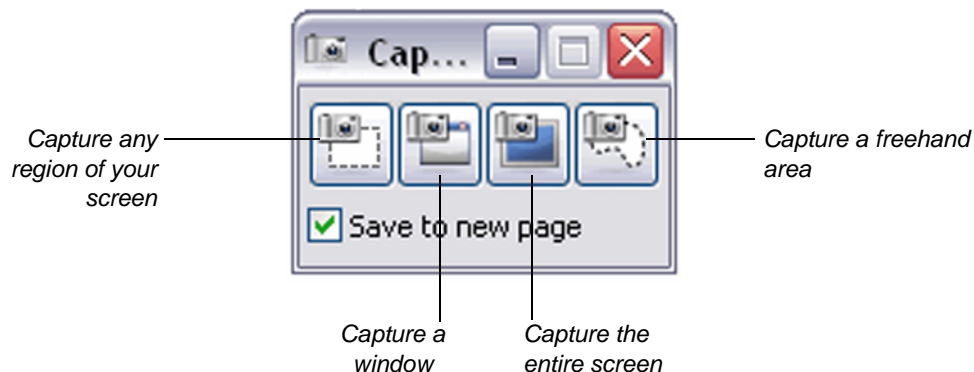

You can also add certain buttons multiple times. For example, if you will be using different shapes in your presentation, you can customize a number of Shape buttons and add them all to Floating Tools.

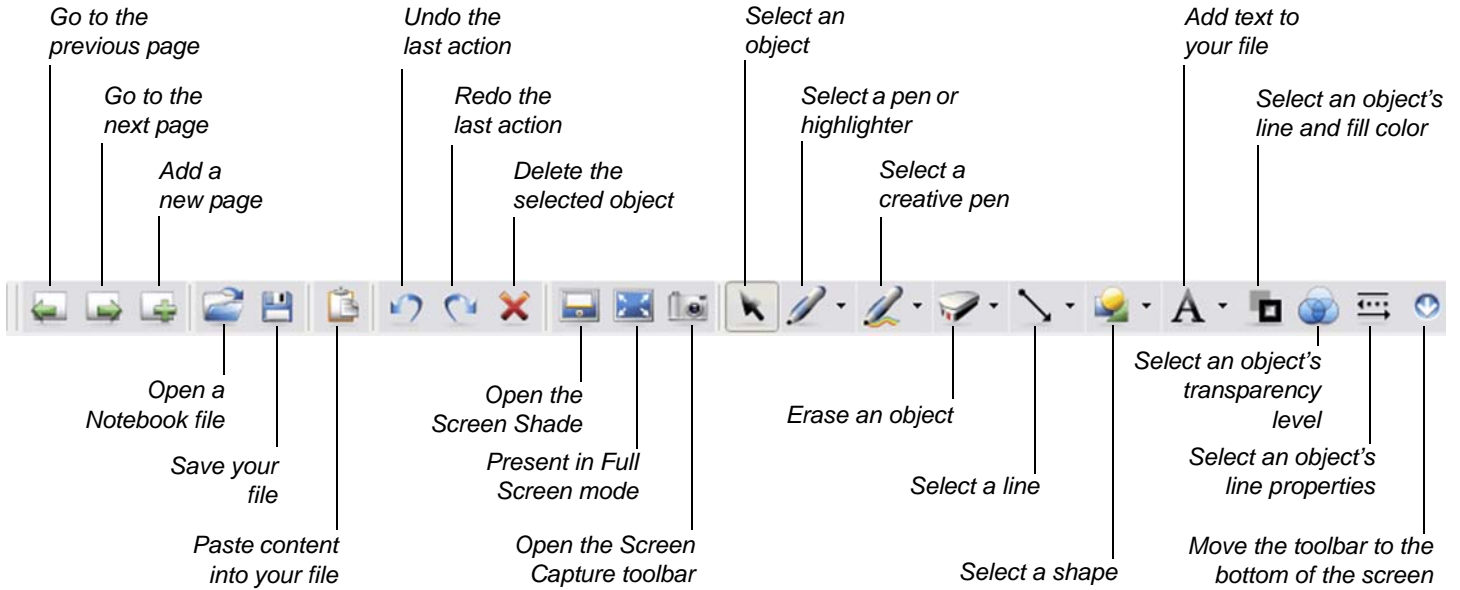

## Screen Capture Toolbar

The Screen Capture toolbar is available from Start Center, Floating Tools and Notebook™ software, and displays several options to capture screen elements. All captured images appear in Notebook software, where you can manipulate them as you would any other object. Select the **Save to new page** checkbox if you want your capture to appear on a new Notebook page.

## Notebook Toolbar

You can find all the buttons you need to create, manage and present your Notebook files in a single, moveable toolbar.

## The Full Screen Toolbar

When you press the **Full Screen** button in Notebook software, the screen's viewing area is maximized, and the menus, tabs and title bar disappear. Use the Full Screen toolbar to navigate through your presentation, access menu options and return to Normal view.
