

OS comparison

SMART Notebook™ 11.3 software

You can install SMART Notebook™ 11.3 collaborative learning software on Windows® and Mac computers. SMART Notebook software has a comparable set of features across the two operating systems. However, there are minor differences in some features as a result of differences in the operating systems. This document summarizes those differences.

Feature	Windows operating systems	Mac OS X operating system software
Open multiple files at the same time	To open multiple files at the same time, you need to start an instance of SMART Notebook software for each file you want to open.	To open multiple files at the same time, select File > New or File > Open in SMART Notebook software. You can save all open files by selecting File > Save All .
Save and export files automatically	You can save or export files every time you move to another page in the file or at regular intervals (1, 5, 15 or 30 minutes).	Not supported.
Attach files to e-mail messages	You can attach files (or PDF versions of files) to e-mail messages by selecting File > Send To .	You can attach files to e-mail messages using an e-mail program such as Mail.
