SMART Notebook 11.2 software for Windows and Mac computers

Resolved issues

General

- When you change the text color and then press SHIFT, the text appears in the correct color in the drawing area.
- You can use the **Make same height**, the **Make same width** and the **Make same size** options in tables that contain multiple line text.
- The text size displays correctly after you press **Undo** multiple times.
- You can remove themes from cloned pages.
- Ink notes group together as expected when two users are writing in dual-page mode.
- Links embedded in locked writing objects work as expected when you press or click them.
- Toolbar icons load when the installation path has non-Latin characters.
- You can edit the top lines of your text objects.
- You can view exported HTML without Adobe SVG Viewer.
- If you clone a page that contains a recording, other objects on the page retain their position after you play the recording.
- Printer names appear correctly in the printer setup window.
- Adobe Flash Player-compatible files with text in the title run at a normal speed.

Windows operating systems

- You're able to deselect attachments using CTRL + Click.

Mac OS X operating system software

- You can use the scroll wheel in dual-page mode.
- No font errors appear when you insert text in a hand-drawn, recognized table.
- You can print in Portrait orientation when printing in Full Page mode.
- You can press OPTION + E on your keyboard to add accent characters to your .notebook file without inadvertently deleting or replacing any characters.
