

SMART Notebook® 2 app for iPad

About these release notes

These release notes summarize the features of the SMART Notebook® app for iPad.

Product information

SMART Notebook app for iPad enables students to open a SMART Notebook lesson on their iPads. Students can work with the same SMART Notebook file individually on their iPads and then collaboratively in a class on a SMART Board® interactive whiteboard or interactive flat panel. Students can open files from an e-mail or a web storage service. They can write, erase, add text, move objects, record and playback audio, and insert images from the iPad's Camera Roll. They can review material, complete activities and create and save SMART Notebook files. They can e-mail activities to their teacher for evaluation or display them on the SMART Board interactive whiteboard or interactive flat panel using AirPlay with an Apple TV.

SMART Notebook 2 app for iPad

About this release

SMART Notebook 2 app for iPad introduces the Calligraphic Pen, the Crayon pen type, customizable pen line styles and page rearranging in the Page Sorter.

- iPad (4th generation)
- iPad mini
- iPad Air

Supported languages

- English (U.S.)
- English (UK)
- French
- German
- Italian
- Russian
- Spanish

New features

- SMART Notebook 2 app for iPad introduces two new pen types:
 - The Calligraphic Pen smoothes your writing or drawing and produces lines of varying thickness. It's useful for teaching students handwriting.
 - Using the Crayon, you can write or draw crayon-like digital ink.
- You can rearrange the order of the pages in a file by dragging and dropping them in the Page Sorter. You can also rearrange groups of pages if your file includes them.
- You can rename pages and groups of pages in the Page Sorter.
- The improved architecture of SMART Notebook 2 app for iPad enables faster file loading and improved software stability.

SMART Notebook app for iPad

- You can undo your last 20 actions.
- When you use the Pen tool, you can select the ink style and the start and end style of your drawings. You can perform the same actions with the Line tool.

Known issues

SMART Notebook 2 app for iPad doesn't support .notebook files created with Activity Builder in SMART Notebook software. The activity appears in the file, but it won't function as expected.
