

# Release Notes

## SMART Notebook SE

### About These Release Notes

This document provides a summary of SMART Notebook SE (Student Edition) software for Windows® operating systems.

### Product Information

SMART Notebook SE software enables students to complete assignments, take notes, manage due dates and organize digital material. Students can add freehand objects, geometric shapes, straight lines, text, graphics, content for Adobe® Flash® Player and tables to a page, and can manipulate and edit these objects at any time. They can save files in a format that is openable in SMART Notebook SE or SMART Notebook software. Along with all the features and functions of SMART Notebook 10, SMART Notebook SE adds file management capabilities to create, share, classify and store homework assignments.

### SMART Notebook SE Bracelet

SMART Notebook SE comes with a USB storage device bracelet that enables you to take the software anywhere and use it on different computers. The bracelet also has space for you to save your files and multimedia content.

### Specifications

- Pentium® III 750 MHz processor
- 512 MB of RAM (1 GB recommended)
- 265 MB free hard disk space (800 MB for full installation with Gallery collections)
- Windows XP or Windows Vista® operating system
- Internet Explorer® internet browser version 6.0 or later
- Adobe Flash Player version 8
- Microsoft® DirectX® technology version 8.1 or later (required for SMART Video Player)

## SMART Notebook SE Bracelet

## Installation Notes

- For information on installing SMART Notebook SE using the installation wizard, see the *SMART Notebook SE Installation Guide* ([document 133804](#)).
- For information on installing SMART Notebook SE using Windows Installer and the msiexec command line interface, see the *SMART Notebook SE System Administrator's Guide* ([document 92263](#)).
- For information on installing SMART Notebook SE using Windows Installer and SMART Install Manager, see the *SMART Notebook SE System Administrator's Guide* ([document 92263](#)).
- You don't need to uninstall SMART Notebook 10 to complete the SMART Notebook SE installation.
- You can install SMART Notebook 10 and SMART Notebook SE on the same computer.

## Known Issues

- Having many flags on an object may cause redraw issues when you drag the object.
- Icons in the *Toolbar Customization* dialog box don't have descriptions and their ToolTips are blank if the language is set to anything other than English.
- When you export multiple .notebook files to the same location, SMART Notebook SE replaces files that have the same name as the exported files without warning.
- When you drop an object onto the left page in dual page mode, the left page switches to the right side.
- File previews don't initially update when you replace a file with the same name.
- SMART Notebook SE doesn't support the SMART Document Camera.

## SMART Notebook SE Bracelet

### NOTE

The issues above apply to the SMART Notebook SE software installed on your computer as well as the software on the USB storage device bracelet. The following issues apply only to the software on the USB storage device bracelet.

- If you connect the SMART Notebook SE bracelet to your computer and SMART Notebook SE doesn't start automatically or it does start but an error message appears, see *You're Unable to Start or Run SMART Notebook SE from your USB Bracelet* ([document 133686](#)).
- You're able to add content to the My Content folder, but you're unable to add Gallery Essentials to the Gallery.
- You can run SMART Tools, such as SMART Video Player and Screen Capture, in English only.
- Bridgit and Instant Conferencing programs are included in the SMART folder on the USB bracelet, but the USB bracelet doesn't remember configuration details, such as which server was used.
- Windows Magnifier, Spotlight and Pointer are in the SMART folder.
- SMART Notebook SE files in the My Binder folder don't have the SMART Notebook icon.
- There is no SMART Notebook SE Welcome Center.
