

Protect your investment with the SMART Care Protection Plan

With the SMART Care Protection Plan, you have a variety of warranty options for your SMART products.

All SMART products include standard warranties free of charge. If you register your SMART Board® 600 and 800 series interactive whiteboards, an additional three years will be added to the standard warranty at no cost, bringing the total coverage period to five years. You can also purchase extended warranties on select SMART products to increase their coverage periods to five years. And, we offer the SMART Projector Care Plus programme, which provides enhanced warranty coverage when you register your SMART projector.

Register your product to extend its warranty

SMART offers a complimentary extended warranty programme for customers who register their SMART Board 600 and 800 series interactive whiteboards within two years of purchase. With registration, you will receive an additional three years at no charge, extending the total coverage period to five years.

Register for the SMART Projector Care Plus programme

The SMART Projector Care Plus programme offers enhanced warranty coverage when you register your SMART projector. If there's a problem with your projector, we will repair or replace it free of charge. SMART will even pay for two-way carriage if you need to send your projector to us for repair. To find out which projectors qualify, see the warranty coverage chart on the reverse.

Purchase an extended warranty

An extended warranty can bring you additional peace of mind by ensuring that your SMART products are covered for a longer period of time. Our standard warranties range from one to three years, depending on the product. With the purchase of an extended warranty, you receive additional coverage to make the total period five years. The terms of the warranty are the same as the original product warranty and are available only on select SMART products. To find out which products qualify, see the warranty coverage chart on the reverse.

Please see the SMART Technologies Limited Equipment Warranty included with your product for warranty-claim procedures.

Notes

- The duration of the Warranty (the “Warranty Period”), commencing on the date of new purchase, is five years upon registration of the serial number of the Equipment. If the Equipment is not registered by the Purchaser within two years of the date of new purchase, the Warranty Period will be two years.
- Projector lamps (used under normal projector operating conditions, not in excess of eight hours per day and 260 days per year) are covered by warranty for 1,000 hours or one year, whichever comes first.
- Originally fitted projector lamps (used under normal projector operating conditions, not in excess of eight hours per day and 260 days per year) are covered by warranty for two years. This applies to the SMART V25 projector only.
- Fully discharged SMART Slate wireless slate lithium ion (Li-ion) batteries are not covered by warranty.
- The limited warranty for rechargeable nickel-metal hydride (NiMH) microphone batteries is 30 days.
- The limited warranty for lithium ion batteries is one year.
- Extended warranties on projectors do not extend lamp coverage.
