

SMART[®]

SMART Board[®] 600 Technical Training Level 2

Are you interested in taking your knowledge of the SMART Board 600 series interactive whiteboard to the next level? This course helps you build on your basic technical knowledge and learn the advanced skills to support SMART Board 600 series interactive whiteboards.

In this course you'll learn:

- About advanced product components like the SMART projector and serial controller
- How to perform field servicing tasks for the 600 series and SMART projectors
- How SMART products work

Who should attend?

Anyone who installs or supports SMART Board interactive whiteboards.

NOTE: You must complete this course to become a SMART Certified Technical Trainer.

What's required for completion?

An assessment for this course is available on the SMART Learning Space (SLS). You must pass the assessment to receive course credit. You can also use credits towards future training, certifications, SMART merchandise and more.

What do I need?

- You must have a computer with an Internet connection. Microsoft[®] Internet Explorer[®] Internet browser is recommended.
- You must have a user name and password for the SMART Learning Space. Registration is free.

How do I register?

Visit learningspace.smarttech.com to register. If you need help or have questions, you can contact us at smarttech.com/contactsupport.
