SMART Notebook™ Training (Introductory)

This is an introductory course designed to help educators learn how to create lesson pages in SMART Notebook collaborative learning software. During this session, you'll build a simple lesson activity to use with the SMART Board® interactive whiteboard in your classroom.

In this course you'll learn how to:

- Use SMART Notebook software and the SMART Board interactive whiteboard to write and work with notes
- Create and combine SMART Notebook objects by adding text and images to the page
- Use simple techniques to create engaging, interactive lesson activities

Who should attend?

K–12 educators and higher education instructors whose classrooms are equipped with SMART Board interactive whiteboards, but who have limited experience using SMART Notebook software to create lessons.

NOTE : Confident use of a Windows® or Mac® computer is required for this session.

What can I expect?

An interactive, hands-on learning experience that's available in several formats for your convenience. Both the face-to-face and distance education sessions are led by a highly knowledgeable SMART training specialist who will guide you towards confident use of the software.

What do I need?

- You must have a computer with the most recent version of SMART Notebook software installed and the ability to connect to the Internet
- You must have a user name and password for the SMART Learning Space. Registration is free.
- To make the most of your session, download the learner files to your desktop before attending
- There may be additional requirements for participants taking this course in a distance education or self-paced e-learning format

How do I register?

Visit learningspace.smarttech.com to register. If you need help or have questions, you can contact us at smarttech.com/contactsupport.
