

SMART[®]

Becoming a SMART Factory Trained Installer

Installation training events equip you with the knowledge and skills to make informed decisions about installation options, connections and troubleshooting for the SMART Board[®] interactive whiteboard. This course features extensive hands-on training.

In this course you'll learn:

- About safety considerations for installations
- How to install the interactive whiteboard
- About interactive whiteboard software and troubleshooting

Who should attend?

Anyone who installs, supports or supervises the installation of SMART Board interactive whiteboards.

What's required for completion?

An assessment for this course is available on the SMART Learning Space (SLS). You must pass the assessment to receive course credit. You can also use credits towards future training, certifications, SMART merchandise and more.

What do I need?

- A room that comfortably accommodates 10 participants and a SMART technical trainer. The area must be large enough to assemble and disassemble a SMART Board interactive whiteboard.
- A wall on which the participants can install a SMART Board interactive whiteboard system
- One SMART Board interactive whiteboard system in its shipping box for every five participants
- You must have a computer with a broadband Internet connection. Microsoft[®] Internet Explorer[®] Internet browser is recommended.
- You must have a user name and password for the SMART Learning Space. Registration is free.
- All necessary installation tools, including a ladder

How do I register?
