

75" | 86" -

Walk in and it turns on

Proximity sensor automatically powers up the SMART Board 7000 Pro when you walk in the room saving time.

As natural as writing on paper

HyPr Touch[™] technology provides lag-free writing precision and automatically identifies pen color and eraser tool.

Easy input access and preview

See and switch input sources on the screen and easily connect computers and accessories to the front convenience panel.

Unparalleled Collaborative Experience

Today's workflows are about going beyond communicating to collaborating. SMART has spent 30 years designing hardware and software solutions that work together to create interactive environments.

Multiple users, tools and colors at the same time

Simultaneous Tool Differentiation frees multiple colleagues to write, erase and move notes at the same time. Pen ID™ recognition and Object awareness™ detection automatically make pens write in different colors, fingers move and palms erase.

Write and save notes directly into applications

SMART Ink® software lets teams write over videos and into **PDFs, Microsoft Office® files** and websites, then save notes in almost any file type. Automatically convert notes to text and access tools, such as spotlight, magnifier and screen shade.

Built to use. Built to last.

Durable and commercial-grade, SMART Board Pro displays have received many safety, regulatory and environmental certifications, giving you peace of mind that they adhere to government or other regulatory requirements.

- 4K 4K Ultra HD resolution
- Accelerated Life Testing
- LED rated for 50,000 hours
- Fully heat-tempered, anti-glare glass
- Silktouch™ frictionless surface

- ENERGY STAR® certification
- Conflict-free materials and sourcing
- Regulatory and environmental certifications*
- 3-year standard warranty**
 (1-year on pens)

^{**1-} or 2-year extended options available. 5-year standard in UK.

SMART Remote Management

lets you efficiently maintain, secure and support all your devices – including SMART Board displays with iQ.

Do More in Your Workspaces

Together with **SMART collaboration software** and **iQ embedded computing** options, SMART Board Pro displays enable fast, flexible and limitless collaboration.

SMART collaboration software is designed to give teams endless ways to brainstorm, innovate and share content.

SMART TeamWorks™ software

With one-touch meeting launch, a connected whiteboard, wireless screen sharing and PDF summaries, SMART TeamWorks is your end-to-end collaboration solution.

SMART Meeting Pro® software

Capture ideas in the Unbound Workspace that expands as colleagues add images, files, links and notes – even over multiple displays and meetings.

iQ embedded computing puts everything teams need in one place at the touch of a finger – without extra hardware or apps.

iQ provides teams one-touch access to collaboration tools including a whiteboard, web browser, apps library and native, wireless screen sharing.

Give your team access to Microsoft Office files and applications on a full Windows 10 Pro computer right at the display by adding an Intel® Compute Card to iQ.

Get the most out of your SMART solution -

We're with you every step of the way. Our business services, training and technical support resources provide peace of mind that your technology investment will provide results.

Business Services

Maximize uptime and protect your investment with SMART's flexible, comprehensive business service plans to meet your unique support needs.

Training

From quick-reference guides to video tutorials, SMART offers a wealth of free training resources to ensure quick adoption of your technology solutions.

Technical Support

From our global installation services to onsite repair, receive expert support from SMART, with the experience and knowledge to ensure effective operations.
