SMART SOLUTIONS FOR **BUSINESS**

Innovations for today's workplace

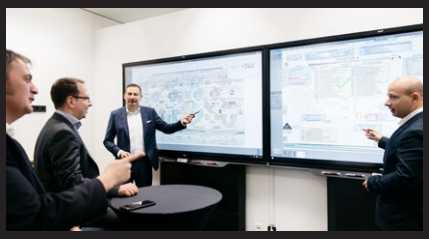
Transforming How You Do Business

SMART displays and software help teams collaborate – in any work environment.

The way we work is changing, and your technology needs to keep pace. SMART solutions enable more productive and effective collaboration leading to faster results – moving your business forward.

We make technology seamless

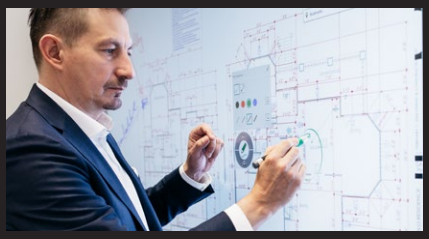
SMART solutions create dynamic workspaces that unlock everyone on your team, so they can all contribute from any location or device.



FLEXIBLE

Plug and play.

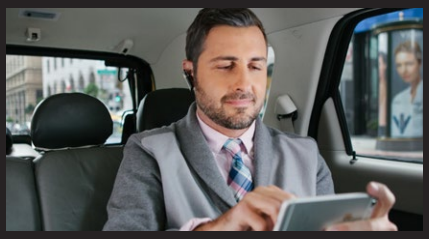
Choose the display, conferencing platform and peripherals that work for your environment and needs.



CONVENIENT

Any file type.

Write over any file type and save notes in popular file formats to continue where you left off.



COLLABORATIVE

Anywhere, anytime.

Anyone can follow along and contribute from anywhere in the world and from any device.

DO MORE IN YOUR WORKSPACES

Today's workflows are about going beyond communicating to collaborating. SMART has spent 30 years designing hardware and software solutions that work together to create interactive environments.

Whether your technology needs are for boardroom presentations, remote training or open brainstorming – SMART has you covered.

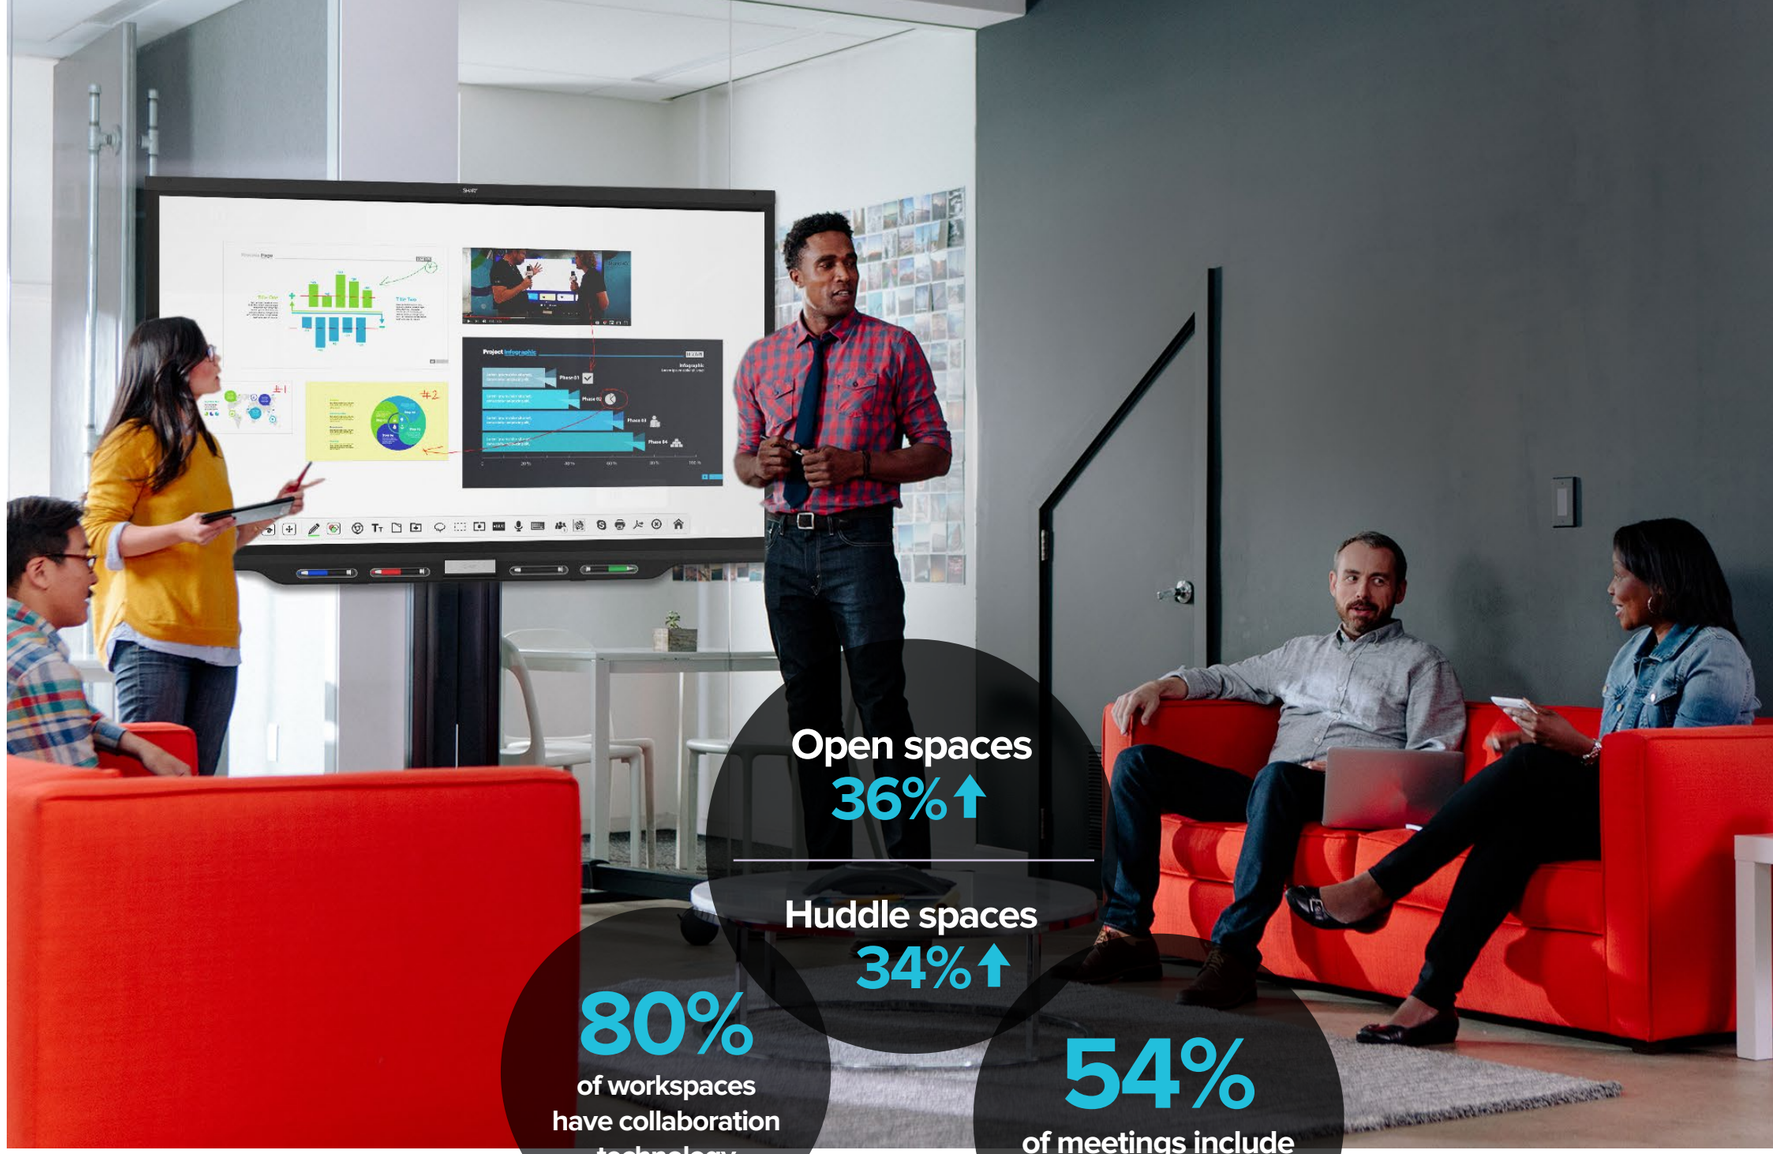
Choose your SMART Board Pro series display > **Choose your conferencing platform** > **Choose your meeting peripherals**

WHAT You Want to Do

- Agile/Scrum/Lean Project Management
- Corporate Training
- Design Review
- Ideation and Innovation
- Command and Control
- Presentations and Conferencing

WHERE You Want to Do It

- Huddle Space
- Training Room
- Conference Room
- Meeting Room
- Personal Office
- Open/Public Space



Open spaces 36%↑

Huddle spaces 34%↑

80% of workspaces have collaboration technology

54% of meetings include remote participants

UNPARALLELED COLLABORATIVE EXPERIENCE

SMART solutions enable faster breakthroughs, more informed decision-making and enhanced productivity – mitigating the risks that come with missed and miscommunication.

SMART Board® Pro series

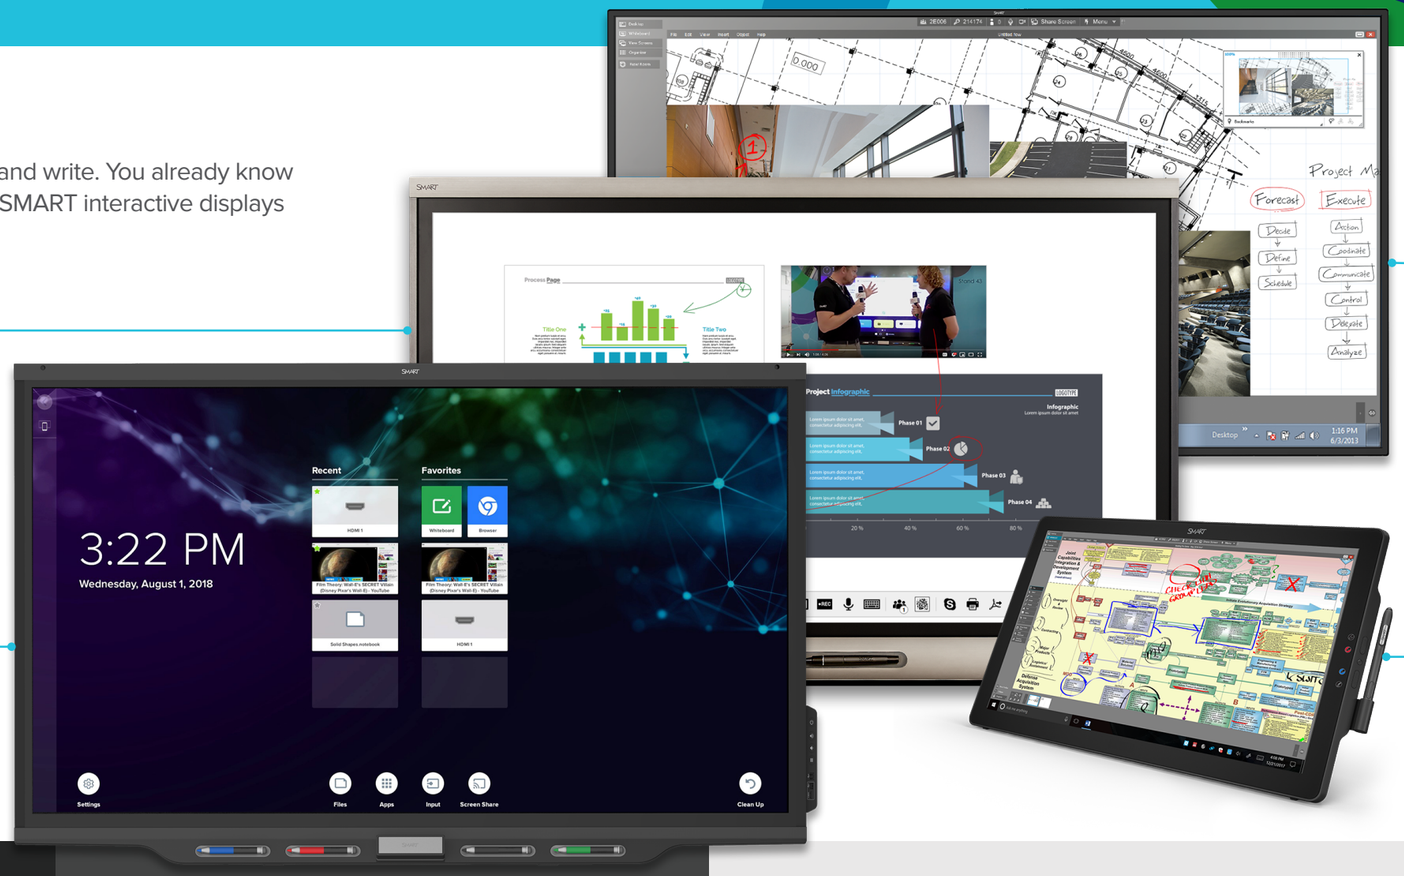
Walk into the room, it turns on. Pick up a pen and write. You already know how to use it. With iQ embedded computing, SMART interactive displays are the digital hub of your workspaces.

SMART Board **6000 Pro series** with iQ

Our most popular display makes meetings more efficient by looping in more minds, insights and perspectives at once.

SMART Board **7000 Pro series** with iQ

Our flagship interactive display. Featuring HyPr Touch™, the most advanced touch, writing and collaborative experience.



SMART Board **2000 Pro series**

Share freely

More than a basic, non-touch display. Wireless screen-sharing makes it easy for colleagues to show whatever is on their Android, iOS, and Windows devices. It's ready to go right out of the box – no apps, wires or extra hardware necessary.

SMART Podium™ **624**

Deliver dynamic presentations

Communicate more effectively. While projecting to a large display, presenters can add notes or illustrations on the touch screen using the cordless, battery free pen – while facing the audience. The SMART Podium also lets instructors deliver training courses from a distance – anywhere, anytime.

iQ makes everything one touch away

SMART Board displays with iQ put everything you need in one place. The embedded computer offers one-touch access to SMART software applications and collaboration tools including a whiteboard, web browser, and wireless screen sharing from any Android™ (Google Cast), iOS® (AirPlay) and Windows® (Miracast) device – without plugging in hardware or installing apps.

GLOBAL COLLABORATION HUBS

Turn your meeting rooms into connected workspaces. Combine a **SMART Board 7000 Pro series with iQ** and **SMART TeamWorks software** on the built-in **Intel Compute Card** for seamless collaboration – without limits.

Collaboration Software

Designed to leverage the power of SMART interactive displays, our software options connect teams and enable them to share and interact with content in ways you won't believe until you experience it.

SMART TeamWorks

Plan. Collaborate. Recap.

With one-touch meeting launch, a connected whiteboard, wireless screen sharing and PDF summaries, SMART TeamWorks™ is your end-to-end collaboration solution. The whiteboard lets teams interact with all sorts of dynamic content and remote team members can add notes and files as easily as their colleagues in the room.

SMART Meeting Pro

Unbound workspaces

SMART Meeting Pro® visual collaboration software allows colleagues to create and capture ideas in the virtually unlimited interactive workspace. The workspace expands as you add images, files, links and notes – even over multiple displays and meetings – enhancing collaboration.

KEY FEATURES

Multiple users. Multiple tools. Multiple colors. All at the same time. **Only with SMART.**

SMART Ink® lets teams write over videos and into PDFs, Microsoft Office® files and websites, then save notes into almost any file type. Move, copy/paste and erase notes or even convert them to text. Spotlight, magnifier and screen shade tools keep colleagues focused.

Simultaneous Tool Differentiation frees multiple colleagues to write, erase and move notes at the same time.

Object awareness™ recognizes a pen (write), finger (touch/move) or fist (erase), without manually selecting tools.

Pen ID™ lets multiple team members write with different colored ink at the same time.

Simultaneous touch points let multiple people write with fingers and use gestures, like zoom, rotate and flip.

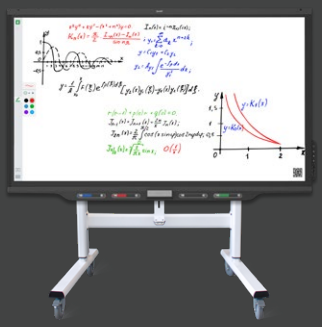
Silktouch™ ensures a smooth, comfortable touch experience and eliminates finger burn.

MORE SMART SOLUTIONS

SMART kapp®

Work the same, but better

Just walk up and start writing with a dry-erase marker. Everyone you invite sees whatever you write, erase and draw on the whiteboard surface – as it happens. Save notes on your phone, tablet or PC and email sessions as PDFs or JPEGs. Protect sensitive work with encrypted connections.



SMART Height-Adjustable Electric Mobile Stand*

Create meeting spaces anywhere

Designed for the full lineup of displays, the SMART Electric Height-Adjustable Mobile Stand enables you to create collaborative meeting spaces for large to small groups in any office environment. With a power bar to connect the display and accessories there's only one cord to plug into the wall – making mobility a snap.

**Available in North America Only*

TRAINING AND SUPPORT SERVICES

Partnering with SMART means we don't leave you to figure out how to use your collaboration solution – we help you achieve your goals. SMART provides training and has several installation and support services options to fit your needs and budget.

Training

Access our online training courses and self-serve, how-to videos on our hardware and software solutions anytime, anywhere, so you can get the most out of your collaboration technology – from Day 1 onward.

Support

SMART global support has the experience, knowledge and resources to ensure consistent, fast and effective support. SMART Service Plans provide flexible, scalable installation, software maintenance and support service level agreements to meet your needs.
