

# SMART SOLUTIONS FOR GOVERNMENT

Innovations for training and decision-making

## Get Teams up to Speed Faster

SMART displays and software help connect people with vital information worldwide.

First-responders, government departments and military leadership rely on real-time communication between local and remote team members. SMART solutions work with wireless devices so anyone can contribute ideas from anywhere, enabling information exchange beyond the walls of meeting, training and control rooms.

## We make technology effortless

SMART interactive displays are global technology hubs connecting purpose-built software, content and devices into one active collaboration environment. The applications are limitless.

### COLLABORATION

Get everyone on the same page, fast

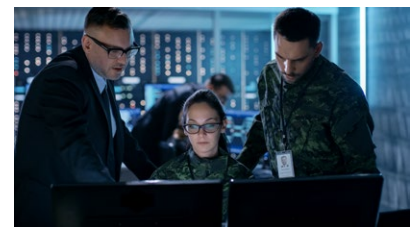

SMART solutions make it easy for everyone to contribute to files in the same unbound digital workspace – across borders and time zones.

### TRAINING

Prepare teams anywhere for anything

SMART solutions help you create realistic scenarios using the same types of maps, plans and mobile devices teams would use on the job.

### COMMAND & CONTROL

Speed up planning and deployment

SMART solutions speed up planning and decision-making in situations when every minute counts – and you cannot afford miscommunication.

# SMART Board® interactive displays

With SMART interactive displays, there's no barrier to what teams can achieve. Simply walk up and use for faster breakthroughs, enhanced productivity and serious ROI.

SMART Learning Suite

SMART Meeting Pro

## SMART Board 7000 & 7000 Pro series with iQ\*

Our flagship interactive display. Featuring HyPr Touch™, the most advanced touch, writing and collaborative experience.

### Key Features

Multiple users. Multiple tools. Multiple colors. All at the same time. **Only with SMART.**

**Simultaneous Tool Differentiation** lets multiple people use pens, erasers and fingertips together.

**Object awareness™** recognizes a pen (write), finger (touch/move) or fist (erase).

**Pen ID™** lets multiple team members write with different colored ink.

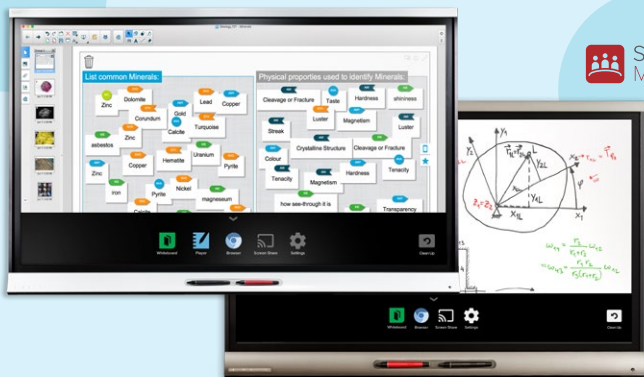

**Simultaneous touch points** let multiple people use gestures, like zoom, rotate and flip.

**SMART ink™** lets you write over and into applications and save your notes in almost any file type.

**Silktouch™** ensures a smooth, comfortable touch experience and eliminates finger burn.

 SMART Learning Suite

 SMART Meeting Pro

## SMART Board 6000 & 6000 Pro series with iQ\*

Put more heads together.  
Empower collaboration for more productive meetings.

Browser

Screen Share

Settings

### iQ makes everything one touch away

SMART Board displays with iQ put everything you need in one place. The embedded computer offers one-touch access to SMART software applications and collaboration tools including a whiteboard, web browser, and wireless screen sharing from any Android™ (Google Cast), iOS®

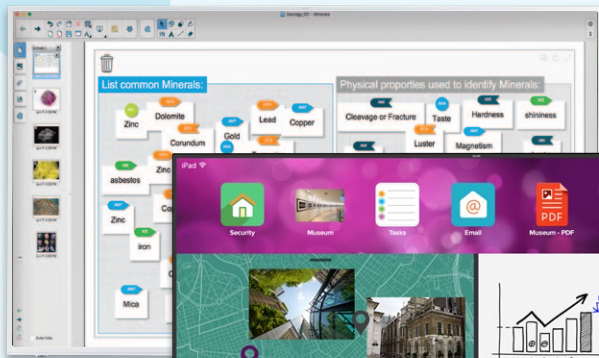

(AirPlay) and Windows® (Miracast) device – without plugging in hardware or installing apps.

*\*SMART Board 6000 and 7000 series interactive displays are available without the iQ module for federal facilities that have restrictions on Bluetooth and wireless network hardware.*

# More SMART Solutions

 SMART Learning Suite

 SMART Meeting Pro

## SMART Board 2000 & 2000 Pro series

### Share freely

More than a basic, non-touch display. Wireless screen-sharing makes it easy for colleagues to show whatever is on their Android, iOS, and Windows devices. It's ready to go right out of the box – no apps, wires or extra hardware necessary.

 SMART Meeting Pro

 SMART Learning Suite

## SMART Podium™ 624

### Deliver dynamic presentations

Communicate more effectively. While projecting to a large display, presenters can add notes or illustrations on the 24" touch screen using the cordless, battery free pen – while facing the audience. The SMART Podium also lets instructors deliver training courses from a distance – anywhere, anytime.

# SMART Software

All SMART interactive displays come with a 1-year SMART Meeting Pro or SMART Learning Suite software subscription.

## SMART Meeting Pro®

### Unbound workspaces for limitless collaboration

This powerful visual collaboration software allows users to create and capture ideas in the virtually unlimited interactive Unbound Workspace, as well as make notes over any available application to keep meetings organized and easily communicate outcomes.

## SMART Learning Suite

### Interactive course content that engages

SMART Learning Suite combines course delivery, assessment, collaboration and game-based learning into one ultimate software suite. It connects interactive displays and trainee devices enabling instructors to better deliver key concepts, improving engagement and comprehension.

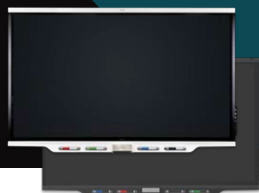

## SMART ink

SMART ink lets you write and draw with digital ink both over and into PDFs, Microsoft Office® files, websites and videos, and save your notes into almost any file type. You can move, copy/paste and erase digital ink notes or convert them to text.

**SMART ink is included with SMART Learning Suite and SMART Meeting Pro software.**
