

SMART Notebook Maestro and SMART Notebook® for iPad app

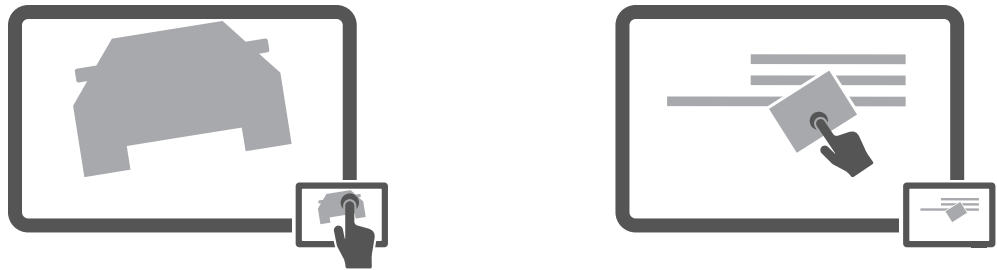

Conduct lessons from anywhere in the
classroom using your iPad

Experience freedom in the classroom like never before.

Inspired Collaboration™ | **SMART**

Unleash the power of mobility

The **SMART Notebook Maestro** add-on lets you interact with content and conduct collaborative SMART Notebook lessons with an interactive display and a single iPad anywhere in the classroom.

Working with content is effortless whether you're using your interactive display at the front of the room or on your iPad. Write, create and manipulate objects on either device, with everything shared in real time. Bridge your classroom technology together with SMART Notebook Maestro and never compromise mobility for interaction again.

The app that's changing the classroom

A light SMART Notebook experience, **SMART Notebook for iPad app** helps you view and create SMART Notebook lessons, complete assessments on the fly with SMART Response VE and import files from Dropbox, Google drive, iTunes or SMART Exchange using your iPad.

What you need to get started

- Active SMART Notebook Advantage subscription
