

The SMART logo is positioned in the top right corner of the image. It consists of the word "SMART" in a white, bold, sans-serif font, with a registered trademark symbol (®) to its upper right. The background of the entire image is a circular frame containing a photograph of a teacher with long dark hair and glasses leaning over a table to assist a group of young students. The teacher is holding a tablet, and the students are looking at it with interest. The image has a teal and green color scheme with a network-like pattern of white dots and lines overlaid on the left side.

SMART®

SMART PROFESSIONAL SERVICES

Your purchase is just the beginning

SMART offers a full spectrum of pedagogically relevant services to support you. Our implementation services, professional development and community resources help educators learn to use their SMART solutions, hone their technology skills and improve student learning outcomes.

EDUCATION CONSULTING

Maximizing your SMART investment

We work with you to build a strategy that will transform teaching practices and support the needs of your students. Drawing on more than 150 years of experience in education, the **Efficacy and Implementation Team** uses their classroom knowledge to help you improve student learning outcomes in your district.

Implementation is about more than just training — it's about making sure your new technology benefits everyone, including teachers, students and administrators.

When you buy, you receive personalized support and training. Here's what the team will do for you:

Create a needs-based implementation plan

After identifying and analyzing your technology performance requirements, we craft a plan for your district to meet your intended outcomes and goals.

Plan and deliver long-term professional development

We aim to enhance learning right from the beginning and then support you over the long term. Our pedagogically relevant training shows you how to enhance learning, teaching basic technology skills all the way up to advanced techniques.

Assess effectiveness and showcase results

We proactively identify potential obstacles and adjust our approach if necessary. Case studies based on qualitative and quantitative results from your district will highlight your return on investment.

WHAT'S THE BENEFIT?

STUDENTS

Develop vital life skills, tap into their potential and find a potential career path.

TEACHERS

Have the opportunity to reach every student and maximize class time.

DISTRICTS

Can increase classroom equity and have a positive impact on society.

SUCCESS STORIES

How SMART solutions have improved learning outcomes in schools

Higher test scores, more engaged students and increased concept retention are just some of the successes our customers have seen since their SMART implementation.

PROFESSIONAL DEVELOPMENT

Learning options for all stages

Technology changes fast. Stay on top of the latest advancements and become a SMART expert. Learn how to teach with technology anytime, anywhere.

Complimentary professional development

We offer pedagogically relevant courses that help teachers better adopt SMART solutions to improve student outcomes. Our variety of training resources cater to different skills levels, schedules and learning styles.

SMART Online Courses

Web-based instruction that covers foundational skills, pedagogy and theory, and much more.

SMART Ed2Ed YouTube Channel

Videos produced by educators for educators with helpful tips and tricks from experts.

SMART Tech2Tech Network

Valuable courses, videos and a message board for technical staff and administrators.

In-person training and certification

For districts looking for customized and scalable professional development, a global network of trainers is available to plan and deliver custom training. SMART Training Centers can also train and certify one of your staff to become a SMART Certified Trainer themselves, allowing you to conduct your own workshops in your district, and personally oversee the successful integration of your SMART solutions.

SMART TRAINING CENTERS

Where to go for all levels of training

SMART CERTIFIED TRAINERS

Experts who can teach your teachers

The Importance of Lifelong Learning
