

HD-1021AOC cable

Overview

The HD-1021AOC is a 33' (10 m), active optical cable that carries uncompressed HDMI 2.1 video and audio over optical fiber. It supports resolutions up to 8K at 60 Hz and a maximum bandwidth of 48 Gbps. Featuring a plenum-rated jacket suitable for in-wall and in-ceiling installations, the cable is bus-powered from the connected source and requires no external power supply.

This Ultra High Speed HDMI™ Cable is certified under the Ultra HDMI™ Cable Certification Program. It has been tested and certified by SMART to work with all SMART interactive displays that have an HDMI connector.

Note

The HD-1021AOC is a directional cable. Connect the Source end to your playback device and the Display end to your screen. Reversing the connection will result in no signal.
