

## Comparison

# SMART product pens

Each SMART interactive product comes with one or more pens specifically designed for that product, which you can use to write or draw in digital ink. Using a pen from a different SMART product can cause unexpected behavior, such as broken digital ink lines or intermittent contact detection. For this reason, it is important to use pens designed for your SMART product.

The following tables show the pens for several SMART products.

## Interactive whiteboards

Product	Part No.	Pen	Pen features
SMART Board® 480	20-01474-20		<ul style="list-style-type: none"><li>• Passive pen (no battery or electronics)</li><li>• Light gray ring above the nib</li><li>• Two-tone gray barrel with the darker gray closer to the nib</li><li>• 5 mm diameter tip</li><li>• No eraser</li></ul>
