SMART®

Specifications
SMART Learning Suite
2019

Overview

SMART Learning Suite's software gives teachers the tools to transform static content into interactive experiences by combining lesson delivery, assessment, collaborative workspace, and game-based learning into one ultimate education suite. SMART Learning Suite is a subscription-based offering that includes SMART Notebook® desktop software and SMART Learning Suite Online software.

SMART Notebook: Desktop software

Available for Windows or Mac, SMART Notebook comes with lesson creation tools, subject-specific features and endless ways to wow students. Time-saving templates are easy to customize for all grades and subjects.

Enable individual sign-in and install SMART Notebook software on any computer so that teachers have the flexibility to design lessons at school or at home.

See support.smarttech.com/software/smart-notebook for more information on this product.

SMART Learning Suite Online: Online software

SMART Learning Suite Online lets teachers add game-based and collaborative activities to SMART Notebook, PDF, PowerPoint® files, and Google files, and share lessons to student devices so they can complete individual handouts, participate in class-wide games and assessments, or co-create in shared workspaces.

Teachers and students can access SMART Learning Suite Online on any computer, display, or mobile device by signing in at suite.smarttech.com.

See support.smarttech.com/software for more information on this product.

Computer requirements for SMART Notebook[1]

	Windows® operating system	macOS® operating system software
General		
Supported operating systems	Windows 10 Windows 8.1	macOS Big Sur (11.0) macOS Catalina (10.15) macOS Mojave (10.14) ❶ **IMPORTANT** Mac computers with Apple silicon must have Rosetta 2 installed. See support.apple.com/en-us/HT211861.
Minimum hard disk space[2]	4.7 GB	2.3 GB
Minimum specs for standard and high definition displays (up to 1080p and similar)		
Minimum processor	Intel® Core™ m3	Intel Core 2 Duo
Minimum RAM	4 GB	4 GB
Minimum specs for ultra high definition displays (4K)		
Minimum graphics card	Discrete GPU **NOTE** SMART strongly recommends that your video card meets or exceeds the preferred requirements. SMART Notebook can run with an integrated GPU. However, your experience and SMART Notebook's performance can vary depending on the capabilities of the GPU, your operating system, and other concurrently running applications.	n/a
Minimum processor/system	Intel Core i3	Late 2013 Retina MacBook Pro or later (minimum)
Minimum RAM	8 GB	8 GB

*Any integrated GPU capable of 4K will meet our minimum requirements if the GPU has dual-channel memory configured.

---

[1]Operating systems and other third-party software released after this SMART software might not be supported.

[2]Additional free space required during installation

	Windows® operating system	**macOS® operating system software**
Other requirements		
Programs	Microsoft® .NET Framework 4.5.1 or later for SMART Notebook software and SMART Ink Microsoft Visual Studio® Tools 2010 for Office for SMART Ink Adobe Reader® 8.0 or later DirectX® technology 10 or later for SMART Notebook software DirectX 10 compatible graphics hardware for SMART Notebook software	n/a

NOTES

- All prerequisite third-party software is built into the installation executable and is automatically installed in the correct order when you run the EXE.
- These are the minimum requirements for SMART Learning Suite, however SMART recommends updating to the most recent versions of the software listed above.

Web access	Internet Explorer® 11 or later Internet access to download and activate SMART software	Safari 8 or later Internet access to download and activate SMART software

- https://accounts.google.com
- https://smartcommunity.force.com/
- https://graph.microsoft.com
- https://www.googleapis.com

The following URLs are used to enable content from YouTube. If you want SMART product users to be able to insert and play YouTube videos when using SMART products, whitelist the following:

- https://*.youtube.com
- https://*.ytimg.com

Network capacity

Students access hellosmart.com to connect to SMART Notebook activities and assessments or their teacher's SMART Learning Suite Online class. These have been designed to keep network requirements as low as possible while still supporting rich collaboration. A school that regularly uses Web 2.0 tools should have enough network capacity to run SMART Notebook activities and SMART Learning Suite Online.

If SMART Notebook activities on hellosmart.com and SMART Learning Suite Online are used in conjunction with other online resources, such as streaming media, greater network capacity could be required, depending on the other resources.
