SMART Assure Warranty

The services delivered under this warranty are:

1. Access to SMART remote technical support

Customers can contact SMART support by phone or through the web to log incidents and initiate support. SMART’s hours of operation for phone support are Monday through Friday, 6 am to 6 pm MT. Web-based support is always accessible at smarttech.com/contactsupport.

SMART’s support phone numbers and local hours are available on our Support site: smarttech.com/contactsupport.

2. Online resources

SMART provides extensive online resources to help you install, use, configure, maintain, and troubleshoot your SMART products. We update these resources frequently, so check back often for the latest information. Visit support.smarttech.com and select your product to get started finding the information you need. If you are looking for more-advanced support articles, check out our Knowledge Base at community.smarttech.com.

3. Access to advanced hardware replacement or return for repair

During the term of warranty, if SMART determines through remote troubleshooting that product repair or replacement is the best way to resolve an issue, SMART will issue a Return Merchandise Authorization (RMA). SMART will offer Advanced Hardware Replacement of the defective Product or component via ground transportation at SMART’s expense (not including applicable duties and taxes). Shipping and/or handling charges may apply, at SMART’s discretion, to remote or secluded destinations where common commercial couriers do not deliver; to the shipment of large, oversized, cubed, or heavy items; or to items that require special handling. SMART shall determine your entitlement based on your product serial number and the regional warranty entitlement.

If product supply is limited, or at SMART's sole discretion, SMART will process the Advanced Hardware Replacement request via the Return for Repair model and SMART will pay for shipping costs or SMART will replace the defective Product with a product of equivalent or better specifications.

Dead On Arrival (DOA): A product qualifies as a DOA if it fails to function within 30 days of the original purchase. If the product is identified as non-functional through standard remote troubleshooting completed by a SMART representative in cooperation with the customer, a replacement hardware Product or components, subject to availability, will be shipped to your location via ground transportation at SMART's cost. Shipping and/or handling charges may apply, at SMART's discretion, to remote or secluded destinations where common commercial couriers do not deliver; to the shipment of large, oversized, cubed, or heavy items; or to items that require special handling. Purchase dates must be supported by proof of purchase upon SMART's request.

4. Access to onsite support for RMA (core product only)

If an RMA is issued as part of the troubleshooting, SMART will coordinate an onsite visit of a SMART authorized technician to remove the defective product and install your replacement or repaired product for you. Unless instructed otherwise by SMART, you are responsible for sending the defective product back to a SMART authorized service center in accordance with RMA return shipping instructions. Regional restrictions apply to onsite RMA support. See [Appendix A](#) for SMART Assure Warranty regional onsite coverage entitlements.

How to claim the warranty

Follow these steps to make a claim under this warranty:

1. Contact SMART Support to initiate a support incident and provide sufficient details to enable a SMART representative to assess the claim. To help us serve you better, provide the serial number of the Product when requesting a warranty claim.
2. The SMART representative will complete a diagnostic and attempt to resolve your claim remotely. If SMART's representative is unable to remediate the fault remotely, we will provide a Return of Merchandise Authorization (RMA) number.
3. If an onsite visit is deemed necessary and you are in a region where onsite support is included in your standard warranty, SMART will schedule the visit of a SMART authorized technician to remove the defective product and install the replacement or repaired product for you. You are responsible for ensuring that a designated contact is present at all times during the service technician's visit. The service technician must receive clear access to the installation site. If you or your designated contact is not at the location when the service technician arrives, we regret that the service technician cannot service your product. If this occurs, you might be charged for an additional follow-up service call. Cancellation/rescheduling of a scheduled service call must be requested at least 48 hours before the scheduled appointment. All requests received less than 24 hours before the scheduled onsite visit may be subject to a charge equal to the onsite warranty service cost.
4. Unless instructed otherwise, you are responsible for shipping the defective Product or component to a SMART-authorized service center and in accordance with the RMA return shipping instructions. Ensure the product is returned in original packaging and the RMA number is clearly marked on the packaging.
5. For DOA and advanced replacement RMAs, you must return the RMA unit to SMART within 30 calendar days of the ship date from SMART to avoid being billed for a new unit at list price. A restocking fee of 15% of the applicable list price may also be billed for units returned after 30 days.

Damaged in shipping

If the Product is visibly damaged when it arrives, you must note the damage on carrier delivery documents and advise SMART or the Distributor or Reseller within ten (10) days of delivery.

Cost claim

SMART may seek shipping costs or reimbursement of any reasonable costs incurred if the Product or component is found, at SMART's discretion, to be in good working order, the problem is not a consequence of a defect or manufacturing fault, or where any of the warranty exclusions or limitations apply. Reasonable costs may include the costs of packaging, insurance, shipping, service, or parts and labor.

If you have purchased a **SMART Service Plan**, separate terms may apply in addition to those set out in this warranty document.

NOTE: Upon completion of your onsite warranty service, you may be sent a satisfaction survey. This feedback is important in ensuring that we continuously improve our service to meet our customers' expectations. If you'd like to

opt-out of the survey, please [contact us](#). Alternately, you can opt-out using the link on the invitation to the survey itself.
