Complete your EdTech deployment

Make screen sharing and digital signage easy to manage in schools. The NX series is a reliable, energy-efficient, non-interactive display that follows SMART’s high quality standards.

Screen share the way you want

Whether used alone or with another interactive display, share your screen through your local Wi-Fi, a browser, an app, or a single cable.

Digital signage anywhere you need it

Provide crystal-clear updates and information in reception areas, corridors, and assembly halls with a display designed to last.

Consistency guaranteed

Don’t mix and match your tech. Stay within a single reliable ecosystem at an affordable price.
